#### LINE STORY

Replenish your skin, mind and body! Moisturizing agents contain age-defying properties that contribute to a glowing complexion while Microalga helps tone skin and reduce wrinkles. Active ingredients, like Vitamin A and Niacinamide, combine and work effortlessly together to help improve the texture of skin. Let Body by CT™ transform you.

#### COLOR TECHNOLOGY

**Color Extend:** Formulated with a combination of ingredients that prep the skin to encourage melanin synthesis, increase oxygen and heighten effects in wellness and tanning sessions.

#### SKINCARE TECHNOLOGY

**Below Zero:** Wellness delivered by nature and sourced from glacial waters, Arctic Microalga helps tone skin and reduce wrinkles for a youthful look.

**Sculpt & Tone:** A synergistic toning complex known to boost the effectiveness of Caffeine. This helps to smooth textured skin, reduce body imperfections and encourage collagen synthesis for a more toned appearance.

**Define:** Designed to reinforce and rebuild the skin barrier, this blend helps smooth skin for a perfected appearance.

**Refined Moisture:** Hydrolyzed Collagen is known for its age-defying properties for a timeless complexion. Combined with Aloe, high amounts of moisture are delivered to the skin to renew and rejuvenate.

**Body Fit:** Vitamin A and Niacinamide combine to aid in smoothing texture, evening and brightening skin tone and improving hydration and dull skin.
