## Week in Review October 8-12th

**Monday:** Boats and travel were the primary focus for today as we

talked about Columbus day

**Tuesday:** Music and laughter were heard around the house today as the Guests made their own instruments with paper cups and rubber bands

**Wednesday:** "Frost on the Punkin" by James Whitcomb Riley and discussions of inventions were just a portion of our day

**Thursday:** Birthday party with Forest Creek which included cupcakes and a frame craft was one of the highlights for the day

**Friday:** A small group was able to spend time with a wide variety of University of Indianapolis students. There was a competitive card game or two played.

## Photos from the week

Crafts and music are a part of the programming for our Guests during the week. In the photo on the left, it shows our friend Patrice from Forest Creek Village leading a craft group with our Guests. Pearce, a University of Indianapolis student came over to play his saxophone. We enjoy the interaction the community has with our Guests.

## Educational Seminar

### Understanding and Responding to Dementia Related Behaviors

Join JWM Neurology and the Alzheimer's Association for an informational program on behaviors and the importance of clinical research studies.
