**Short Bio: (also amendable)**

Regularfantasy is a Canadian DJ, producer and vocalist who has been honing her craft for over 10 years. This certified househead doesn't shy away from throwing in a cheeky chord, a poppy vocal, a sweet twist. Think dark and delicious basslines, a dubby, sensual house sound with a pop feel that gently nods to '90s floorfillers, disco, UK garage, and tripped-out percussive tech moods — psychedelic, sleek, and styled for the dancefloor.

**Longer Bio (Editable to fit event)**

The lush world of Regularfantasy: Sultry pop for freaky dancefloors.

*This certified househead doesn't shy away from throwing in a cheeky chord, a poppy vocal, a sweet twist. Think dark and delicious basslines, a dubby, sensual house sound with a pop feel that gently nods to '90s floorfillers, disco, UK garage, and tripped-out percussive tech moods — psychedelic, sleek, and styled for the dancefloor. With a visual world inspired by retrofuturism, bold colours, and soft edges, this is Regularfantasy.*

*Her DJ CV includes appearances at international clubbing institutions like Corsica Studios (London), Panorama Bar (Berlin), Nowadays (NYC), Public Records (NYC), Deep Blue (Vancouver), Smart Bar (Chicago), Strange Brew (Bristol), Bassiani (Tbilisi), Pikes (Ibiza), Maricas (Berlin), Sunday Sunday (Mexico City) and festivals like Horst (Brussels), Dimensions (Tisno), Lighthouse (Porec), Botanica (San Remo), MUTEK (Montreal), Piknic Elektonik (Montreal), along with an impressive array of underground queer parties — where her sound feels most at home.*

*Plush Managements Inc., the label she runs with fellow Canadian and rave auteur D. Tiffany, is a regular outlet for her solo work and collaborations with friends and co-conspirators on both sides of the Atlantic — putting out anthemic, tongue-in-cheek club numbers for both sultry and whimsical discos alike. Although the label has been laying low for several years, there's more to come soon!*

*Welcome to the ever-expanding universe of Regularfantasy.*

***----- This is old below, but I can write a little bit about what's coming out? :) by subbing things in.***

*The next few months will see the release of a long-awaited collaboration with Balearic trance maestro Spritz, a joint EP with Priori on Jennifer Cardini's Correspondant sublabel Dischi Autunno, and a follow-up to her Alt-House EP with Kristian North under their Rendezvous alias. Also on the horizon are remixes for SMIILE and Steel City Dance Discs, a release on Chloé Caillet's SMIILE imprint with Cecile Believe, further releases on Plush Records, and a special joint project with Priori on NAFF.*
