

## ONYVAA

ONYVAA stands at the forefront of techno's new generation, channeling a timeless spirit and fusing classic roots with a vision built for what's next. She's delivered modular live performances and high-impact DJ sets on iconic stages including Awakenings, Tomorrowland, Creamfields, Printworks, EDC, Drumsheds, Fabric London, Rex Club, Circoloco, Amnesia Ibiza, Hï Ibiza, and many more, fueling her steady rise across the global dance music landscape.

Raised in California and shaped by years in the European underground, ONYVAA channels the soul of techno, the warmth of house, and euphoria of old school trance, fused into a sound that doesn't follow trends or rules. Her sets move with intention and feeling, never formulaic, shaped by sensing the energy and reading the room in real time. Whether behind the decks or performing live with her modular setup, she builds immersive, rhythm-led journeys intended not just to ignite the dancefloor but to elevate the collective state.

Her productions have landed on respected labels including Charlotte de Witte's KNTXT and Richie Hawtin's Plus 8, reflecting a sound that is stripped back, driving, and built for movement, with every element placed with intent. She has toured globally alongside de Witte and has received support from top-tier selectors like Carl Cox and Laurent Garnier. Hawtin has described ONYVAA as "the future of techno," a co-sign that speaks to both her craft and her potential. With early recognition as Best Newcomer at the DJ Awards in Ibiza, her rise is undeniable, and ONYVAA's next chapter is just beginning.
