Some follow trends, others set them. Award-winning music producer & live performer **Rodriguez Jr.** also known as Olivier Mateu has spent 25 years in the industry. His vast experience in all genres of electronic music makes him the visionary of melodic house and techno that he is today.

Over the years he has gradually honed his style into the dynamic, colorful sound of beauty that can now be regularly found on **Mobilee, Anjunadeep, Systematic, Armada** and demanded for on remixes of **Stephan Bodzin, Booka Shade, Eli & Fur, Röyksopp, NTO, Timo Maas** and more.

Drawing inspiration for his live performances from the vintage synths in his Miami studio, Rodriguez Jr. relishes the opportunity to travel the globe and realize his project on stage and has amassed a devoted loyal fan base through the creation of his unique movement where the visceral emotional connection between Mateu and the crowd is becoming trademark. Continuing to blur the boundaries between electronic and organic like few others can, his extensive touring schedule sees Mateu at world-renowned clubs and festivals every week, taking him to the likes of **Fabric London, Space Miami, Mirage New York, Zamna Tulum, Lightning In A Bottle, Movement Detroit** or **CRSSD California**.
