# SILVIE LOTO

---

## BIOGRAPHY

---

Silvie Loto, the artist name for Italian DJ/Producer Silvie Loto hails from the iconic city of Florence. As with most artists Silvie's musical journey at an early age, with some heroes of her adolescence including the likes of Chemical Brothers, Daft Punk, Groove Armada, Depeche Mode.

Fascinated by many styles of electronic music, she became inspired to learn the art form of DJing to blend all the different faces of music. At the age of 17 she started the deep dive into experimenting with DJing and production, crafting a signature style over the years around her first love of house music. Silvie has since never looked back, landing song releases on staple imprints of Bpitch Control Records, and Nervous Records.

Influenced by old house music and the early 2000's minimal sound, Silvie Loto fuses a more traditional house sound with a contemporary Tech House and Deep Tech twist. Her energetic sets create a distinctive atmosphere, characterized by warm basslines and vibrant groove, bringing audiences on an unexpected (though pleasant) auditory journey.

*"My image of the perfect dancefloor is people having a good time, smiling. I want them to remember the night with a smile on their face"*

Her distinctive sound and DJ chops have not gone unnoticed, having already taken the spotlight at some statement venues and festivals across the globe such as Printworks (London), Amnesia and DC-10 (Ibiza), BPM Festival (Portugal), KappaFutur (Italy), and Awakenings (Netherlands) to name a few. She's also been featured lineups of the most renowned party curators worldwide including a regular at Solid Grooves, Circoloco, Music On, Paradise, and No Art.

To say the least, Silvie Loto has established herself as a popular artist in the European electronic dance music community. Next year she will continue to climb ranks with new music releases coming and bookings on the festival circuit.
