TREGAMBE

BIOGRAPHY 2025

TREGAMBE is the creative imprint and record label founded by DJ and producer Juliet Fox. Launched at the end of 2020, the label is fully curated by Juliet, from the artists, the music and the artistic direction. Initially beginning as an output for her own production, before it quickly became a platform welcoming rising stars from around the globe as well as established artists within the techno scene.

At the heart of TREGAMBE lies the legend of the Red String, a Japanese myth that speaks of an invisible thread connecting destined individuals. This philosophy resonates deeply with Juliet, who believes that meaningful connections have the power to shape greatness and should be actively pursued. This is very much at the core of the music and producers selected to feature on the label.

Beyond music, the label has also rekindled Juliet's passion for painting and art, with some of the earlier releases featuring artwork she crafts by hand. Through TREGAMBE, she brings her vision to life, curating a bold yet meticulously refined release schedule.

In 2024, the label expanded its roster, welcoming artists such as Marianne, Audioklinik, and ANDATA, along with Hits: Harder VA 2, a compilation featuring tracks from Ornella, Mark Wildman, Charly Schaller, Mik&Ale, PRMIDV, and Exceed.

TREGAMBE strides into 2025 with an uncompromising vision, curating a lineup that pushes techno's raw, unfiltered energy to new heights. Juliet Fox and WarinD join forces for *Stay With Me*, a deep, hypnotic assault of rolling basslines and industrial grit, primed to shake dance floors to their core.
