

PAOLO FERRARA BIO

Paolo Ferrara is a boundary-pushing Italian DJ and producer behind TechnoMetal, a raw fusion of hard techno and metal. His love for music was born early—his grandfather's vinyl shop was filled with legendary records and platinum discs, including Pink Floyd. That spark turned into a full-blown obsession with sound.

Known as Syrion or the “Heavy Destroyer,” Paolo delivers explosive sets packed with heavy drops and deep emotion. In 2024, his breakout track “Last Resort” hit #1 on the Hard Techno charts, backed by some of the scene's biggest names. Tracks like “Duality” and “Sweet Dreams” followed, both topping 1 million streams on Spotify.

With the launch of Syrion, his immersive audiovisual show, Paolo explores the chaos and order of sound in a whole new way. With fierce energy and a vision that breaks rules, he's reshaping the future of techno.
