

A secure file transfer landing page for every Bracket user

Give your personalized share link to anyone you trust so they can safely share files when they need to

Included with Bracket is our encrypted file transfer service, Bracket Share. This gives users their own personalized file transfer page with a simple URL they can give to anyone. When files and messages are shared, the recipient is notified and the message is added to their Bracket inbox with the files attached, just like a regular Bracket message.

The image shows a browser window displaying the Bracket Share interface. The URL in the address bar is <https://bracket.email/rkaplan>. The page title is "[e] Bracket Share". The main content area is titled "Send a secure message to" and features a profile for Ryan Kaplan, a Production Partner at Crestia Mortgage Group. Below the profile is an "Add files" button, followed by input fields for "Your email:" and "Message:", and a "Send" button. Four blue circular callouts highlight key features: "Personal share link" (a link icon), "Your custom profile" (a person icon), "Abuse prevention" (a shield with a slash icon), and "20 1GB files per share" (a document icon).

Personal share link
Make a share link that fits you, so it's easy for contacts to recognize and remember.

Your custom profile
Establish visual trust so your contacts know where their files are going.

Abuse prevention
Shares are validated via email with Bracket's inbox authentication to block unwanted senders.

20 1GB files per share
Share as many as 20 huge files at once without worrying about storage limits.

Keep reading to see how specific industries can benefit →

Legal Industry

Law firms which adopt **Bracket Share Secure File Transfer** differentiate themselves with a highly secure, yet user-friendly client experience, resulting in increased productivity while demonstrating tangible evidence of trustworthiness.

KEY ADVANTAGES:

Streamlines information exchange

Bracket Share's secure and rapid large file transfer features empower legal staff and their clients to securely share files as large as 1GB in size (add up to 20 per message) without clogging up their inboxes.

Proof of file receipt

Bracket provides proof of delivery and prevents false claims of non-delivery.

Reputation management

Bracket enables law firms to build a reputation of trust and security so that clients feel confident sharing sensitive information electronically and attorney-client privilege is never at risk.

Bracket Share's custom link feature lets legal workers and their clients share sensitive messages and files anytime from any web browser!

EXAMPLE:

1. Lawyer directs client to his Bracket Share Link to send sensitive evidence related to his case
2. Files are uploaded, scanned for threats, and encrypted
3. Sender is verified for authenticity and files are sent
4. Lawyer is instantly notified via email with secure, expiring sign in button to view/reply to encrypted message and files with one click
5. Encrypted files and conversation are available for 1 year

Healthcare

Healthcare organizations that adopt **Bracket Share Secure File Transfer** provide a better overall patient experience while establishing a reputation of trust with patients, pharmacies, insurance companies, other healthcare agencies and more.

KEY ADVANTAGES:

HIPAA compliant

Bracket Share uses military-grade AES256 encryption to exceed HIPAA compliance requirements.

Rapid delivery and updates

Realtime conversation updates reduce lag in critical discussions when every second is important.

Send large x-ray or scan files

Bracket Share can handle 1GB files (up to 20 per message), drastically reducing inbox bloat.

Timestamped for accuracy

Detailed activity logs let you easily see if (and when) recipients viewed/downloaded shared files.

Bracket Share's custom link feature lets health professionals and patients securely share vital data anytime from any web browser!

EXAMPLE:

1. Researcher gives his Bracket Share link to a colleague for sending large test result files related to clinical trials
2. Files are uploaded, scanned for threats, and encrypted
3. Sender is verified for authenticity and files are sent
4. Researcher is instantly notified via email with secure, expiring sign in button to view/reply to encrypted message and files with one click
5. Encrypted files and conversation are available for 1 year

Financial

Financial services companies which integrate **Bracket Share Secure File Transfer** with their workflow reduce frustration with a smoother, more seamless client experience, increased productivity, and lower costs while building trust that lasts a lifetime.

KEY ADVANTAGES:

Satisfies financial regulatory compliance

Bracket Share ensures regulatory compliance with Sarbanes-Oxley, FINRA, the Gramm-Leach-Bliley Act (U.S.) and other privacy and security legislation.

Strengthens brand trust and loyalty

It's important for recipients see a face and name they recognize and trust. Bracket Share notifications can be customized with your personal profile, logo, and other company details.

Easy to use for any customer

Even your grandma can use Bracket Share. There's nothing to install and no account creation. Just go to the link and upload files to share.

Bracket Share's custom link feature lets financial services and their clients safely share files and messages anytime from any browser!

EXAMPLE:

1. Bank tells customer to send photos of receipts for fraudulent charges claim via Bracket Share Link
2. Files are uploaded, scanned for threats, and encrypted
3. Sender is verified for authenticity and files are sent
4. Fraud Prevention agent is instantly notified via email with secure, expiring sign in button to view/reply to encrypted message and files with one click
5. Encrypted files and conversation are available for 1 year

Car Dealer

Automotive dealerships using **Bracket Share Secure File Transfer** speed up the process of reviewing sensitive files and documents essential to loan approval. Bracket Share is designed to simplify the encrypted file transfer experience for buyers and sellers alike.

KEY ADVANTAGES:

More efficiency, zero maintenance

As a cloud-based solution, Bracket Share provides significant cost savings compared to other options, which are expensive to implement and maintain.

Instant notifications bring speedier sales

Bracket Share quickly notifies you when someone securely shares a file, so the car buying process moves down the road fast with no tedious delays or breakdowns in communication.

Sender verification

When someone uploads files to Bracket Share we verify that they're really who they say they are, protecting both the buyer and seller from fraud.

Bracket Share's custom link feature lets car buyers and sellers securely share documents and files anytime from any web browser!

EXAMPLE:

1. Car salesman sends a buyer to his Bracket Share Link to send sensitive insurance and drivers license docs
2. Files are uploaded, scanned for threats, and encrypted
3. Sender is verified for authenticity and files are sent
4. Sales associate is instantly notified via email with secure, expiring sign in button to view/reply to encrypted message and files with one click
6. Encrypted files and conversation are available for 1 year

Mortgage and Real Estate

Mortgage and Real Estate teams who use **Bracket Share Secure File Transfer** will leave a lasting impression with their clients by providing a seamless, highly secure, yet user-friendly file transfer experience from contract to closing and everything between.

KEY ADVANTAGES:

Share as many as 20 large files at once

Bracket Share empowers Mortgage and Real Estate professionals and their clients to securely share files as large as 1GB in size... up to 20 files per share.

Keep up when it's crunch time

Time is of the essence when buying or selling a home or working with fluctuating interest rates. Bracket Share's email notifications reduce conversation lag and alleviate stress during time-sensitive deals.

Instills trust and confidence

Personalized email notifications and share pages give a sense of familiarity, so clients know their sensitive documents are going to the right person.

Bracket Share's custom link feature lets real estate professionals and their clients safely share files and messages anytime from any browser!

EXAMPLE:

1. Home buyer clicks Bracket Share Link in Loan Officer's email signature to share files for loan application
2. Files are uploaded, scanned for threats, and encrypted
3. Sender is verified for authenticity and files are sent
4. Loan Officer is instantly notified via email with secure, expiring sign in button to view/reply to encrypted message and files with one click
6. Encrypted files and conversation are available for 1 year
