

SATA Drive Rack

Single Drive, L-Type, Internal, 3.5"

Model
451116

No tools required for quick and easy connection.

Unlike traditional hard drive docking kits, the MANHATTAN® SATA Drive Rack eliminates the need for tools or an internal tray to quickly and easily connect SATA drives with desktop PCs. The patented SATA connector shifts the contact friction to its interior, reducing wear and tear on the drive connector pins. An internal arm mechanism ensures that the drive removal is precise and smooth to help prevent damage.

Lifetime Warranty

Strict manufacturing standards ensure the highest quality in all MANHATTAN products. All items carry a full Lifetime Warranty — the strongest quality commitment anyone can make.

Model
451116

Features

- Directly insert SATA 150/300 L-type drives into a desktop PC bay — no internal tray required
- Fits 3.5-in. SATA 150/300 L-type drives; installs in 5.25-in. bay
