The MANHATTAN® New York Notebook Computer Briefcase with its sophisticated details makes a stylish transition from airline cabin to conference room. The cushioned handle with magnetic clasp helps easily lift and load into overhead bins and racks. When traveling with extra luggage, a sleeve slips onto an extended rolling bag handle. A rear zippered pocket is ideal for storing a jacket, wet umbrella or newspaper. An expansion panel adds additional interior volume and matching MANHATTAN New York Rolling Computer Briefcase (438872) can carry more gear for longer trips.

Perfect for Short Trips or Extended Stays

The padded computer compartment and elastic strap accommodates most notebook computers with widescreens up to 15.4". The top-load configuration offers quick packing and airport inspections. Three generous main interior storage compartments provide a place for nearly everything and keep everything in its place. Accordion-style pockets keep papers, documents and magazines smooth and flat and easy to find. Two key hooks, one equipped with a quick-release clip, help prevent scratches and damage to equipment caused by loose, unfastened keys. Both are ideal for securing home, car or office keys and a digital camera, USB flash drive or other small electronic device. An organizer panel with three pens loops and an ID/business card holder keep writing instruments and cards ready for the best first-impression. Other pockets secure computer accessories, cables and other equipment. The organizer panel easily removes to stow bulky items or pack for special trips.

Beautifully Designed to Perform

The exterior and interior are carefully constructed of lightweight, durable, easy-care materials that resist water and wear.
