

Hi-Speed USB 2.0 DVB-T TV Stick

Full-function Remote Control and Antenna

Transform your desktop computer into a digital multimedia center.

Model
176118

Receive digital television and radio broadcasts almost anywhere! DVB-T (Digital Video Broadcasting — Terrestrial) delivers practical digital television broadcasting to consumers worldwide. Many countries have already implemented DVB-T or have decided to use it for future digital terrestrial television deployment. The MANHATTAN® Hi-Speed USB 2.0 DVB-T Stick brings free-to-air terrestrial television and radio to notebook and desktop computers.

Advanced Features and Controls Enhance Viewing Options

Digital Personal Video Recording captures and directly saves programs to the hard drive for replay or transfer to CD and other portable media devices. Electronic Program Guide (EPG) allows the viewer to browse program summaries, conduct channel and program searches, schedule reminders and other functions. Using the time-shifting capability, viewers can replay favorite scenes, skip annoying advertising and apply pause/rewind/fast forward control to live video and recorded programs.

Easy to Install and Ready to Use

Favorite television and radio programs can be enjoyed almost anywhere. Simple USB connection and Plug and Play capability allow the MANHATTAN Hi-Speed USB 2.0 DVB-T Stick to easily install in seconds on a Windows-compatible desktop or notebook computer without requiring an additional external power source.

Lifetime Warranty

Strict manufacturing standards ensure the highest quality in all MANHATTAN products. All items carry a full Lifetime Warranty — the strongest quality commitment anyone can make.

Model
176118
