

# Multi-Card Reader

## with Built-In Multi-Media Panel

**Model**  
702775

**Convert an empty, unused PC bay into a digital content management center.**

The MANHATTAN® Multi-Card Reader with Built-In Multi-Media Panel lets you easily download and transfer digital images across many of today's popular flash memory card formats (some require an adapter), including CompactFlash, Microdrive, Magicstor, Memory Stick, MagicGate, SecureDigital, Multimedia, SmartMedia, XD and TransFlash formats.

### Convenience without the media device

Access picture files without directly connecting the camera or other media device to the computer. Helps conserve battery power by eliminating the need to directly connect digital device to PC. A front-mount USB port expands power availability.

### Lifetime Warranty

Strict manufacturing standards ensure the highest quality in all MANHATTAN products. All items carry a full Lifetime Warranty — the strongest quality commitment anyone can make.
