

Advanced Multi-Media Keyboard

USB, 2 Port Hi-Speed USB 2.0 Hub, Scissor (X-Structure) Keys

Scissor key switches add high performance to high style.

The MANHATTAN® Advanced Multi-Media Keyboard combines dramatic styling with advanced key switch technology to provide an exceptional typing experience. Scissor (X-structure) keys, like those found on notebook computers, provide shorter keycap travel, quiet operation and solid, crisp response that help improve typing speed. Its 12 hotkeys offer quick, one-touch access to frequent multi-media, sleep and shutdown functions.

Contemporary design with a built-in USB hub

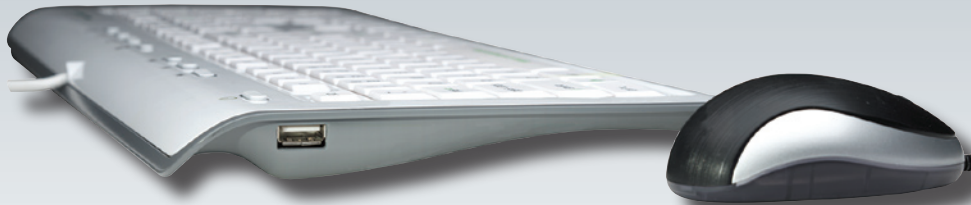

Ergonomic design, thin profile and a generous work area with an adjustable tilt mechanism offer comfortable typing positions and a modern appearance. Quickly and easily connect a digital camera, music player or other USB device through the two side-mounted Hi-Speed USB 2.0 ports.

Lifetime Warranty

Strict manufacturing standards ensure the highest quality in all MANHATTAN products. All items carry a full Lifetime Warranty — the strongest quality commitment anyone can make.
