

SATA Power Cable Adapter

16 cm (6.3 in.)

Model
306201

Power needs are constantly changing.

SATA and Molex connections always seem to have too many or too few pins for each user's needs. MANHATTAN returns the flexibility back to the builder. If there is an additional SATA power connection, you can convert it easily to a 4-pin Molex for use with other connections.

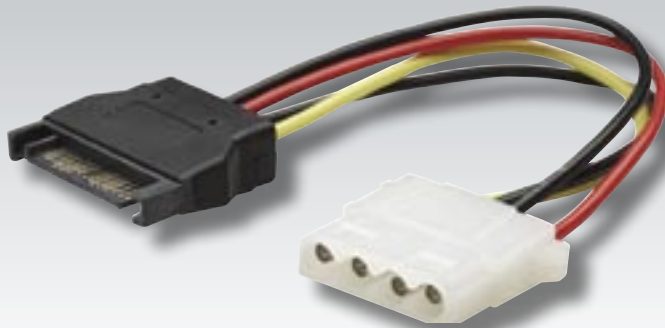

Quality Construction and Greater Versatility

MANHATTAN uses exacting standards in our cables. This means far more reliability, less downtime and less cost in replacement. This cable allows you the flexibility to add more Molex connections by using unused SATA power connections.

Lifetime Warranty

Strict manufacturing standards ensure the highest quality in all INTELLINET NETWORK SOLUTIONS products. All items carry a full Lifetime Warranty — the strongest quality commitment anyone can make.

Model
306201

Features

- Converts a 15-pin SATA power connection to a 4-pin Molex
- Helps create additional power connections from existing SATA sources
- Gold-plated SATA connector
- Molded PVC boot
