

Drive Enclosure

Hi-Speed USB 2.0, SATA, 2.5", Black Silicone

Part No.: **130103**

Create new storage solutions to transfer, share and store important data.

Install an idle or new hard disk drive into a Manhattan Drive Enclosure to expand storage capacities for desktop and notebook computers. Its durable, one-piece silicone construction easily stretches and conforms to help protect most 2.5-inch drives from daily hazards and minor impacts. Once properly installed, the generous opening helps dissipate damaging heat generated from a high-performance SATA drive. A flexible, built-in USB cable quickly attaches to any USB port or conveniently stores for travel using a side-mounted magnetic clasp. Windows and Mac compatibility with plug-and-play and hot-swappable capabilities helps provide a versatile portable storage solution without bulky external power supplies or annoying cables and adapters.

Features:

- Supports data transfer rates for up to 480 Mbps
- Silicone construction provides snug, cushioned fit that protects drive and permits ventilation
- Fits standard 2.5 in. SATA drives with easy, quick installation — includes built-in USB cable
- Lightweight, slip-resistant design ideal for portable storage
- Windows and Macintosh compatible, plug and play, hot swappable
- Three-Year Warranty

Specifications:

General

- MA6116 chipset
- SATA L-type internal data and power connections
- Transfer rates: read, 29 Mbps; write, 19.8 Mbps
- Working temperature: 0 – 45° C
- USB type-A male cable, 5 cm (2 in.); built-in with magnetic clasp
