

SuperSpeed USB Active Extension Cable

A Male / A Female, 5 m (16 ft.)

Part No.: **150712**

Easily overcome distance limitations to connect USB devices.

Use the Manhattan SuperSpeed USB Active Extension Cable to connect a computer USB port to a USB device almost anywhere in the room. Extend 5 meters more to the existing connection without signal loss. Manhattan SuperSpeed USB Active Extension Cable with built-in repeater is fully compliant with USB 3.0 and earlier specifications to help devices operate at maximum performance levels. Plug-and-play capability, Windows/7/8.1/10/Macintosh versatility and no external power or driver requirements help provide greater flexibility in computer and peripheral placement and office layout.

Features:

- Extends and boosts the signal to any USB device – supports data transfer speeds up to 5 Gbps
- Built-in repeater helps maintain USB 3.0 signal quality, electrical and timing specifications
- Extends the connections to enclosures and other peripherals up to 5 m (16 ft.) without signal loss
- Plug and play; Windows/7/8.1/10 and Mac compatible; bus power requires no external power supply
- Three-Year Warranty

Specifications:

Standards and Certifications

- USB 3.0
- CE
- RoHS
- WEEE

Electrical:

USB power output: 5 V \pm 5% / 269 mA

General

- Throughput: 5 Gbps
- Bus powered
- All USB-supported operating systems

Connectors

- USB 3.0 Standard-A male
- USB 3.0 Standard-A female
- Nickel plated
- Molded PVC boot

Cable

- 28 AWG conductors
- Shielded
- Withstanding voltage: 300 V DC 10 ms
- Insulation resistance: 5 MOhm
- Contact resistance: 10 Ohm
- Thermal plastic casing

Package Contents

- SuperSpeed USB Active Extension Cable
