

Manhattan Stealth Touch Mouse

Buttonless. Noiseless. Limitless.

Part No.: **178013**

The 2.4GHz wireless Manhattan Stealth Touch Mouse is the first mouse that features all “touch” technology. No buttons. Not even a scroll wheel. Just a touch-sensitive surface that recognizes preprogrammed fingertip movements. The extraordinary Manhattan Stealth Touch Mouse can also be used as a presenter for PowerPoint or PDF presentations, and simple finger gestures control back, forward, select, swiping and scrolling. You control everything with either a tap, swipe or slide of your fingertip.

Features:

- No buttons. Innovative Curve-Touch technology allows for wheel-free scrolling and fingertip control on the touch-sensitive surface.
- 2.4GHz technology offers wireless freedom with effective range up to 10 m (33 ft.)
- Can be used as a normal mouse or a presenter to show your PowerPoint or PDF presentations
- Auto power management helps extend battery life
- On-board storage compartment protects USB receiver from loss and damage
- Compact size and ambidextrous shape
- Low-friction base smoothly glides over work surfaces
- Plug-and-play installation; Windows and Mac compatible
- Lifetime Warranty
