

Sound Science Atom Glowing Wireless Speaker

Mini-Speaker with Wireless Bluetooth Technology and Rhythmic LED Lighting Effects, Blue

Part No.: [162449](#)

EAN-13: 0766623162449 | UPC: 766623162449

Like its namesake, the Sound Science Atom Glowing Wireless Speaker is small, simple and more powerful than you might imagine. Using Bluetooth technology, it connects easily to smartphones, tablets and notebooks from up to 10 meters (30 feet) away. Its powerful 40mm driver and passive subwoofer deliver music that is louder and clearer than you might expect based on its compact size. And, its grab-and-go wrist strap makes it perfect for carrying with you virtually anywhere.

But, the real power of the Atom comes from its ability to transform virtually any scenario into a party. Colorful, pulsating multicolored LEDs put on a dazzling light show that's sure to keep things exciting, and its brightly colored housing glows vividly under black lights.
