

Sound Science Orbit Durable Wireless Speaker

Speaker System with Wireless Bluetooth Technology, Rubberized Outer Housing and MP3 Player, Green

SKU: 162371 | EAN-13: 0766623162371 | UPC: 766623162371

The Sound Science Orbit Durable Wireless Speaker is an amazing, versatile little wireless speaker that can follow the party no matter where it goes. Bluetooth technology allows it to connect to smartphones, tablets, laptop computers and other devices from up to 30 feet away. Two 40mm neodymium drivers and a passive subwoofer pump out rumbling bass and high-quality sound. A durable, rubberized outer housing lets the Orbit survive everyday bumps and falls. And its compact size fits easily into a bag or backpack.

What's even better is that the Orbit doesn't need to be connected via Bluetooth for you to enjoy your music. Plug a Micro-SD memory card or USB flash drive into the back of the Orbit and use the built-in MP3 player to rock out. Or, you can connect a 3.5mm stereo cable (not included) to the headphone jack of your audio device, then plug the other end into the audio jack on the back of the speaker for wired audio playback.

If those cool features weren't enough, the Orbit has an internal microphone for making and taking calls, a rechargeable battery that will last for up to 6 hours when connected wirelessly and Bluetooth media controls that will let you pause, play and switch tracks on your connected device.

Features:

- Bluetooth 2.1 + EDR
- Durable rubberized housing
- 4- to 6-hour battery (continuous wireless playback)
- USB port for MP3 playback (up to 32 GB)
- Micro-SD card port for MP3 playback (up to 32 GB)
- 3.5mm audio port for wired use
- Built-in mic and wireless audio controls
