

NUMERIC KEYPAD HUB QUICK INSTALL GUIDE

MODEL 177443

Thank you for purchasing the MANHATTAN®
Numeric Keypad Hub.

The asynchronous Number Lock function keeps the Number Lock mode independent of your computer's keyboard so you can simultaneously input letters from the keyboard and numeric data from the keypad. **For Specifications, see back.**

MANHATTAN®

BRINGING COMPUTERS TO LIFE

MANHATTAN® offers a complete line of PC Components, Peripherals, Cables and Accessories. Ask your local computer dealer for more information or visit us online at www.manhattan-products.com

MH-177443-miniQIG-0110-01

Mini B
connector

- Provides 2 Hi-Speed USB 2.0 ports to connect peripherals
- 19 full-size keys, including backspace
- Scissor (X-structure) key switches reduce typing noise, improve response and offer low-profile keystrokes
- Lifetime Warranty

INSTRUCTIONS

1. Using the included USB cable, connect the mini B-type port of the keypad to a USB A-type port on your computer.
2. If the Num Lock LED (top left on front panel) is on, your entries are numerical. (Press <Num Lock> to change.)
3. If the Num Lock LED is off, entries are directional.

NOTE: If a "Could not find the device" message appears on your computer, consult your dealer.
