EAN-13: 0766623524766 | UPC: 766623524766

The INTELLINET NETWORK SOLUTIONS Hi-Speed USB 2.0 to Fast Ethernet Mini-Adapter is a compact, high-performance network adapter that allows you to upgrade your desktop or notebook computer to operate at 10/100 Mbps speeds on the LAN. Because it attaches to one of your computer's USB connectors, there is no need to open up your PC — and the user-friendly setup software makes installation quick and easy.

Faster Throughput

The Hi-Speed USB 2.0 to Fast Ethernet Adapter allows you to connect to the network at 100 Mbps Fast Ethernet throughput speeds. Other adapters that only support USB 1.1 can not even come close to providing you with this enhanced performance.

Auto-Negotiation

The Hi-Speed Adapter will automatically detect the network speed that the LAN switch port is set to and run at the same speed. The adapter supports 10Base-T Ethernet and 100Base-TX Fast Ethernet.

Full Duplex

When running in full duplex mode, the Hi-Speed Adapter connects at the following link speeds: 20 Mbps (10Base-T Ethernet) and 200 Mbps (100Base-TX Fast Ethernet).

Portable Design

The Hi-Speed Adapter is compact, and can be easily used from one computer to another, or transferred in your notebook case as you travel. It doesn't take up a lot of space, and doesn't add clutter to your workspace.
