

MLXL Wireless Laser Mini Mouse

**USB, Adjustable Three-Level Resolution, Three Buttons
with Scroll Wheel**

**Adjustable three-level resolution with wireless laser
performance.**

Model
177474

The MANHATTAN® MLXL Wireless Laser Mini Mouse combines modern design with advanced performance. Its top-mount push-button instantly shifts resolution from 800/1200/1600 dpi to suit a wide range of applications, including routine computing tasks and detailed projects requiring a fine touch. With auto power management and an on/off switch to help maintain proper battery levels, the retractable cable recharges while in use for uninterrupted operation.

Precision with Comfort and Convenience

Its compact-sized, ambidextrous shape and three-button configuration provide direct access to essential commands with minimal wrist movement. The faux leather surface helps provide a secure, comfortable grip and give workspaces a distinguished appearance when paired with a MANHATTAN Mouse Pad. The remarkably small yet powerful USB micro receiver with 2.4 GHz technology provides an effective range of up to 7 m (30 ft.) and stores in a special onboard compartment or remains installed for true wireless convenience.

Easy Installation and Low Maintenance

Plug and Play installation and compatibility with Windows XP/Vista/7 and Mac OS 9.0 and higher offer quick and easy operation. With no mechanical or rolling parts to wear or fail, the MLXL Wireless Laser Mini Mouse requires little maintenance for reliable service.

Lifetime Warranty

Strict manufacturing standards ensure the highest quality in all MANHATTAN products. All items carry a full Lifetime Warranty — the strongest quality commitment anyone can make.
