

Multi-Function SATA Quick Dock

**Hi-Speed USB 2.0/eSATA 3.5"/2.5" with One-Touch Backup,
2-Port USB Hub and Multi-Card Reader**

**Enjoy fast data access, create portable storage
and simplify HDD exchanges.**

Ideal for IT technicians and desktop or notebook computer owners with numerous hard-disk drives, the MANHATTAN® Multi-Function SATA Quick Dock eliminates the need for multiple external enclosures and inconvenient PC case installation and removal. Its one-touch backup and high-capacity hard-drive support (up to 1 TB and more) make data transfer tasks simple and easy to complete. Compact size with heavy-duty construction and rubber underside mounts help isolate and reduce vibration to keep the MANHATTAN Multi-function SATA Quick Dock and an installed drive securely in place on a desk or technician's bench. The multi-card reader panel allows digital media enthusiasts to easily download and transfer digital images across many of today's popular flash memory card formats (some require an adapter not included). Compatible with CompactFlash, Microdrive, Memory Stick, MagicGate, SecureDigital, Multimedia and XD formats, files are easily accessed without directly connecting the camera or other media device to the computer. Plug and Play with Windows compatibility, the MANHATTAN Multi-Function SATA Quick Dock quickly installs through an available USB or eSATA port. Its hot-swap capability allows rapid, multi-HDD exchanges and quick data access without computer restarts.
