

# Hi-Speed USB Internal Hub

**Converts an empty bay into a USB hub.**

**Model**  
350310

The MANHATTAN® Hi-Speed USB Internal Hub brings USB convenience to the front of a desktop computer. It easily converts an empty, unused 3.5" bay into a four-port Hi-Speed USB hub to quickly add USB digital cameras, flash drives, external hard-drive enclosures and more. It's an ideal desktop computer upgrade that provides handy USB connections without the nuisance of moving the PC case for rear panel access or disconnecting cables and devices to free a port. USB 1.1 compatibility supports older devices and provides Hi-Speed USB data transfer speeds up to 480 Mbps.

## Easy to Add Connectivity

Plug and Play and hot-swappable capabilities and included mounting screws help make installation into any 3.5" bay quick and easy.

## Lifetime Warranty

Strict manufacturing standards ensure the highest quality in all MANHATTAN products. All items carry a full Lifetime Warranty — the strongest quality commitment anyone can make.

**Model**  
350310
