Ideal for new systems, upgrades and replacements

Computers and their internal components can generate large amounts of heat during operation. Without reliable and efficient cooling, this heat can contribute to poor performance, lead to a shorter service life and possible system failure.

Reliable, efficient cooling solution

MANHATTAN Case/Power Supply Fans are equipped with high-quality sleeve, ball or ceramic bearings to help deliver efficient, reliable cooling and quiet performance. Easily installed and offered in range of sizes, MANHATTAN Case/Power Supply Fans help circulate cool air through the case to dissipate heat away from processors and components to reduce heat damage.

Features:

- Four-pin Molex pass-through with two-lead fan power connections for easy installation
- Ideal for new systems, upgrades and replacements
- Sleeve bearing delivers quiet, reliable operation
- Lifetime Warranty
