

Desktop Microphone

Adjustable boom

Part No.: [176590](#)

EAN-13: 0766623176590 | UPC: 766623176590

Essential function with exceptional sound quality and value.

The MANHATTAN Desktop Microphone is an ideal accessory for personal computers. Its omni-directional electret condenser equally detects sound from all directions and provides a stable frequency and dynamic range suitable for voice recording, instant messengers, VoIP, multimedia and other applications. The lightweight boom adjusts 90° and holds its position or easily slips from the base for handheld use. Prudent design and durable construction make it a sensible choice without compromising valuable desktop space.

Easy to Connect and Ready to Use.

The MANHATTAN Desktop Microphone is ready for use with a single, quick connection through a 3.5 mm stereo plug. No amplifier, external power supply or complicated installation is required.

Features:

- Sensitive omni-directional microphone ideal for voice recognition, instant messengers, VoIP and multimedia
- Versatile boom adjusts 90° and holds steady position — separates from base for handheld use
- Simple, one-plug connection requires no amplifier or external power
- Practical design and durable construction
- Lifetime Warranty

Specifications:
