Part No.: [179348](#)

EAN-13: 0766623179348 | UPC: 766623179348

Wired Optical Gaming Mouse with seven buttons and LEDs - Perfect precision for intense immersion

The Manhattan Wired Optical LED Gaming Mouse combines modern design with advanced precision and high-stabilization performance. Its top-mount push-button instantly shifts resolution from 800, 1200, 2400 and 3200 dpi to suit a wide range of applications, including gaming or daily computing tasks. Color-changing LEDs make your gaming experience truly immersive. Its full-sized shape is suitable for left- and right-handed gamers and offers seven buttons — standard right and left, scroll wheel with auto-scroll, page forward and back, increase and decrease dpi resolution — that give you direct access to essential commands with minimal wrist movement. A non-slip texture applied to critical surfaces provides a secure, comfortable grip. Plug-and-play capability with Windows[®], Mac[®] and Linux[®] compatibility makes installation quick and easy.

Features:

- Precise, accurate optical sensor and sturdy construction for agile, reliable performance
- Ergonomic shape for the most comfortable hand positioning and wrist support to reduce fatigue, even during prolonged use
- Top-mount, push-button control to instantly shift resolution from 800,
