

## IC INTRACOM

Founded in 1987, IC Intracom is a leader in manufacturing and distributing high-quality, innovative networking and consumer-electronics components.

Through OEM relationships and strategic partnerships in the IT channels, products we produce are available from more than 70,000 companies in over 100 countries around the world. Through enhanced features, simplicity, quality and performance at reasonable prices, our products provide the right tools so your customers can focus on what's important to them — and so can you.

Our dedicated quality assurance team is responsible for thorough inspections to ensure products meet customer expectations, specifications and quality standards. Our aim is to be your primary source for product-sourcing needs.

**Important: Read before use. • Importante: Leer antes de usar.**

## DEUTSCH

- 1 Nehmen Sie den Nano-Funkempfänger von der Unterseite der Maus und stecken Sie ihn in einen freien USB-Anschluss Ihres Computers.
- 2 Legen Sie zwei AAA-Batterien in das Batteriefach der Maus ein
- 3 Legen Sie zwei AA-Batterien in das Batteriefach der Tastatur ein
- 4 Die Tastatur und Maus verbinden sich automatisch mit dem Nano-Funkempfänger.

**HINWEIS:** Falls Ihr Computer diese Geräte nicht erkennt, prüfen Sie die USB-Verbindung und die USB-Kompatibilität Ihres Betriebssystems (Windows 98/ME/2000/XP/Vista/7/8.1/10 und Linux).

Die Spezifikationen finden Sie auf [icintracom.com.tw](http://icintracom.com.tw).

## ESPAÑOL

- 1 Coge el receptor inalámbrico nano de la parte de abajo del ratón y conéctalo en un puerto USB libre del ordenador.
- 2 Inserta dos pilas AAA en el compartimento de las pilas del ratón.
- 3 Inserta dos pilas AA en el compartimento de las pilas del teclado.
- 4 El teclado y el ratón se conectarán automáticamente al receptor inalámbrico nano.

**NOTA:** Si la computadora no detecta estos dispositivos, compruebe la conexión USB y la compatibilidad USB de su sistema operativo (Windows 98/ME/2000/XP/Vista/7/8.1/10 y Linux).

Para especificaciones, visite [icintracom.com.tw](http://icintracom.com.tw).

## FRANÇAIS

- 1 Retirez le nano-récepteur sans fil situé sous la souris et branchez-le sur un port USB disponible sur votre ordinateur.
- 2 Insérez deux piles AAA dans le compartiment à piles de la souris.
- 3 Insérez deux piles AA dans le compartiment à pile du clavier.
- 4 Le clavier et la souris se connectent automatiquement au nano-récepteur sans fil.

**REMARQUE :** Si l'ordinateur n'identifie pas ces appareils, vérifiez la connexion USB et la compatibilité USB de votre système d'exploitation (Windows 98/ME/2000/XP/Vista/7/8.1/10 et Linux).

Vous trouvez les spécifications sur [icintracom.com.tw](http://icintracom.com.tw).

## POLSKI
