

IC INTRACOM

Founded in 1987, IC Intracom is a leader in manufacturing and distributing high-quality, innovative networking and consumer-electronics components.

Through OEM relationships and strategic partnerships in the IT channels, products we produce are available from more than 70,000 companies in over 100 countries around the world. Through enhanced features, simplicity, quality and performance at reasonable prices, our products provide the right tools so your customers can focus on what's important to them — and so can you.

Our dedicated quality assurance team is responsible for thorough inspections to ensure products meet customer expectations, specifications and quality standards. Our aim is to be your primary source for product-sourcing needs.
