Part No.: [153638](#)

EAN-13: 0766623153638 | UPC: 766623153638

USB Extension Cable - Easily overcome distance limitations to connect USB devices

Use the Manhattan USB 3.0 Type-A Active Extension Cable to connect a computer USB port to a USB device almost anywhere in the room. This cable gives you an additional 15 m (49 ft.) to the existing connection without signal loss. It is fully compliant with USB 3.2 Gen 1 (formerly known as USB 3.0) specifications to help appropriate devices operate at maximum performance, and it's backward compatible with earlier versions for greater flexibility. Plug-and-play capability on Windows[®] 7/8.1/10/11 and macOS[®] systems makes the cable a great choice to link computers and peripherals in the home and office.

Features:

- Extends and boosts the signal to any USB device - supports data transfer speeds up to 5 Gbps
- Built-in repeater helps maintain USB 3.2 Gen 1 signal quality, electrical and timing specifications
- Extends the connections to enclosures and other peripherals up to 15 m (49 ft.) without signal loss
- Plug and play; Windows 7/8.1/10/11 and macOS compatible
- Three-year warranty
