Rack mount 13-way UK PDU power strip with air switch protection against surges and overloads - power up to 13 devices in your network

Plug your networking, telecom, surveillance, AV or other electronics into this 13-outlet PDU from Intellinet Network Solutions. It is compatible with standard electrical equipment and features 13 British BS1363A outlets in a durable black aluminum housing. This PDU mounts in 2U of space in 19-inch racks. As the best choice for protecting equipment against surges or overloads, the built-in air switch uses air to break the circuit and stop the flow of electricity.
