

## 4-Port Compact KVM Switch

PS/2, with Cables and Audio Support

Part No.: **150118**

The INTELLINET NETWORK SOLUTIONS KVM Switch is a four-port compact KVM switch with audio and mic switching functionality. Its PS/2 support on the console side allows you to use a PS/2 keyboard and mouse. It comes with four sets of detachable PS/2 KVM combo cables and four sets of audio/mic cables for SOHO and office desktop multimedia applications.

### Audio and Microphone Switching Offers an Uninterrupted Multimedia Experience

The audio and microphone switching function of this KVM Switch allows you to leverage the multimedia systems on each of your two computers. You can monitor the audio/mic input/output of each computer without re-connecting the audio/mic cables. You can also choose to use either independent/simultaneous switching of both PC channel and audio/microphone channel for their maximum convenience. And it takes only one speaker/microphone set instead of one set for each computer. Furthermore, it offers you user-programmable simultaneous/independent PC and audio/mic switching functionality for flexible multimedia and KVM switching operations.

### Zero Cabling Hassles for KVM Users

This KVM Switch saves you cabling troubles with its four 1.5 M detachable KVM and audio/mic cables. In fact, you have zero cabling troubles since you don't have to worry about finding suitable cables to fit—they come in the box!

### Features:

- Manage/control four PS/2 computers from a single keyboard, monitor and mouse
- Audio and microphone switching for uninterrupted multimedia experience across multi-platforms
- Hot-plugging PCs for maintenance without powering down the KVM Switch or PCs
- Channel selection via push buttons and keyboard hotkeys
- Supports resolutions up to 1600 x 900 pixels
- LED indicators for easy status monitoring
- No external power adapter required
- Includes four connection cables for computer, speaker and microphone connection
- Three-Year Warranty
