## USB Type-C Multi-Memory Card Reader Hub for SD, Micro SD, MS, xD and CF cards - great for Your USB-C enabled Mac, iPad, iPhone, Laptop, Android, and More

The versatile, external Manhattan USB-C to SD / microSD Card Reader/Writer is a reliable and efficient USB solution for managing your flash cards. It lets you access and transfer data seamlessly, which is particularly useful since most modern host devices no longer feature onboard memory card slots. It's also the solution for photographers using cameras other than the iPhone with their MacBook Pro, where the absence of an SD card slot on the poses an inconvenience. The Hi-Speed USB 2.0 interface transfers data with up to 480 Mbps.

### Card slots galore

Conveniently access a wide range of the most popular flash card formats through seven slots. From SD/MMC to microSD/TF, MS to xD, and CF, this card reader has you covered.

### Universal compatibility

The USB-C and USB-A plug ensures compatibility with almost every device. Connect it to your desktop PC, laptop, MacBook, iPad Pro, MS Surface Android smartphone/tablet like Samsung® Galaxy and more. It works with various operating systems - Windows, macOS, Linux, Chrome OS, iOS, iPadOS, and Android.

## Connectivity you can carry

There's no need for external power supplies. This bus-powered card reader is ready to go when you are. Simply plug it in and access your cards immediately. Designed with portability in mind, it easily fits into laptop bag pockets, making it perfect for on-the-go data access.

## Plug-and-play setup

Installation is hassle-free with plug-and-play functionality. There's no need for complicated configurations or driver downloads. Connect it, and you're ready to access your cards.

## Simultaneous data management

Streamline your workflow and save valuable time. This unit lets you simultaneously read and write on two cards, eliminating the need for constant plugging and unplugging.

### Features:

- Five slots for quick USB access to most popular flash card formats like SD, microSD/TF, MS, xD, CF, MMC, RS-MMC, SDHC, SDXC, microSDXC, microSDHC, MS-PRO, MS Duo, and more
