Shielded Cat6a modular connector with intuitive design for faster and easier terminations

FastCrimp RJ45 Modular Plugs from Intellinet Network Solutions help installers terminate RJ45 cables quickly and easily. Getting clean connections with the jacket at the crimp point sometimes requires an extra trimming step to get the wire lengths just right. With the intuitive design of the FastCrimp Modular Plugs, you run the wires all the way through the plug and out the front before you crimp and cut them with the Intellinet FastCrimp Modular Plug Crimping Tool (#790352). There's no more wondering if the wires got crossed in the connector or if they are seated completely - you can easily check them for perfect positioning and additional peace of mind.

Features:

- Makes terminations fast and easy by feeding the wires through the plug and out the front
- Cat6a STP 360° shielded premium RJ45 plug for 10G and PoE applications up to IEEE802.3bt / PoE++ / 4PPoE / Ultra PoE
- Compliant with ANSI/TIA-568-D, ISO/IEC 11801 and IEC 60603-7-51
- Three-prong terminal for solid and stranded wire with 23 AWG
