

10-Port USB-C Power Delivery Charging Station - 200 W

Ten USB-C PD Ports with up to 20 W per Port, 200 W Total Output, Smart Power Allocation and Safe Fast-Charging, White/Gray

SKU: 102766 | EAN-13: 0766623102766 | UPC: 766623102766

Desktop Fast-Charging Station - Smart and Safe 200W USB-C Charger for 10 Devices at Once

The Manhattan 10-Port USB Type-C Charging Station is the ultimate charging hub for busy households, offices, and shared workspaces. Plugging into any standard wall outlet, it keeps tablets, phones, cameras, Bluetooth headphones and portable game consoles charged and ready to go - all in one organized location. Ten wide bays fit most devices in their cases, keeping the countertop clean and clutter-free. That means everything can charge in one place, without having lots of chargers plugged into a power strip or devices spread all over your desk. It also means you'll have some freed-up USB chargers to stow in a bag for when you need to charge devices away from home or the office.

Safe and high-powered multi-device charging on 10 ports simultaneously

This desktop charging hub is ultra-powerful with 10 ports pumping out a total of 200 watts of power, which means simultaneous higher-powered multi-device charging. An adaptive smart chip detects and delivers the optimal charging current for connected devices. Ten USB-C Power Delivery (PD 3.0) ports deliver up to 20 W per port so newer iPhones®, iPads®, Samsung® Galaxy Tabs and other PD devices can have full batteries in a short amount of time. All ports feature smart, built-in safety measures to prevent short-circuits, over-voltage, over-current and overheating.

Great for families and offices

Tech-savvy families often own two or more mobile devices per family member, with big charging needs. Bring them together with this extensive fast-charging solution and enjoy a phone-free dinner table. In offices and conference rooms, it gives your co-workers access to charging when they need it.

Features:

- Powerful 10-in-1 fast-charger for phones, tablets, portable game consoles and other mobile devices
- Ten USB-C Power Delivery (PD 3.0) ports delivering up to 20 W per port
- Extensive desktop charging solution for ten devices, ideal for families and offices
- Smart power distribution for the fastest charge to each device
- Overload, overcurrent and overheating protection
- Ten device storage bays, each 15 mm (0.6 in.) wide, for clutter-free use
- 20 W output ideal for charging the iPhone® Pro Max and iPhone® Plus at maximum speed
- Rubber feet for non-slip desktop use
- Two-pole on/off switch cuts power to all ports at once
- Durable plastic housing
- Internal power supply and three detachable 1.5 m power cords with EU, US, and UK plugs - ready for global use
- Three-year warranty
