10G USB-C Hub with both USB Type-A and Type-C Ports Expands Your Connectivity

The Manhattan 4-Port 10G USB-A / USB-C Combo Hub 2x2 transforms a single USB-C port into a powerful expansion solution for all your essential devices. With a sleek aluminum body in Space Gray, this compact hub brings both style and high performance to your everyday workflow - whether you're working at home, in the office, or on the go.

Four Ports. Many Possibilities.

Equipped with two USB-A ports and two USB-C ports, this hub gives you the flexibility to connect peripherals such as mice, keyboards, external storage, card readers, and more. It also supports charging and syncing for smartphones and tablets - making it the perfect companion for modern USB-C laptops and notebooks.

Ultra-Fast Performance

Built to the USB 3.2 Gen 2 SuperSpeed+ standard, the hub delivers blazing data transfer rates of up to 10 Gbps, allowing you to move large files, back up devices, or transfer media in seconds. Each port supports power up to 4.5 W (5 V / 0.9 A), which lets you also charge your phone or tablet.

Designed for Modern Devices

Whether you use a MacBook®, Windows® laptop, Chromebook™, Ultrabook™, Surface® device, or desktop PC, the hub works seamlessly across platforms. It is fully compatible with USB4® and Thunderbolt™ 3 / 4, giving you maximum flexibility no matter your setup.

Effortless Use, Anywhere

Thanks to true plug-and-play functionality, no drivers or configuration are needed. The hub is bus powered, so it requires no external power adapter - ideal for travel or minimalistic workspaces. A sturdy 15 cm (6 in.) built-in USB-C cable ensures a secure connection, while the compact, lightweight design slips easily into an external pocket of your laptop bag.
