SKU: 102780 | EAN-13: 0766623102780 | UPC: 766623102780

USB 3.0 Type-C / Type-A Card Reader for Quick Access to SD, microSD, CF and Memory Stick (MS) Cards

The Manhattan USB-C / USB-A Combo Multi-Card Reader / Writer is your all-in-one solution for fast and convenient access to a wide range of memory cards. With four dedicated slots for SD, microSD (TF), CF and Memory Stick (MS) formats, it eliminates the need for multiple adapters and keeps your workflow simple and efficient - whether you're transferring photos, videos or important files.

Dual Connectivity for Maximum Flexibility

Equipped with a smart 2-in-1 combo cable, this card reader features both USB-C and USB-A connectors, making it compatible with virtually any device. From modern USB-C laptops and smartphones to traditional USB-A desktop PCs, you can connect instantly without worrying about adapters. The 0.5 m (1.6 ft.) cable offers the perfect balance between flexibility and convenience, whether on your desk or on the go.

Fast Transfers with SuperSpeed USB

Thanks to USB 3.2 Gen 1 (formerly known as USB 3.0) technology, it delivers SuperSpeed data transfer rates of up to 5 Gbps. Move large files such as high-resolution photos, 4K videos or backups in seconds. For even greater efficiency, it supports simultaneous reading and writing on two cards, saving time and eliminating the hassle of constant unplugging.

Ready for All Your Devices

Designed for broad compatibility, this reader works seamlessly with Windows, macOS, Linux, Chrome OS, Android, iOS and iPadOS. It's the perfect companion for laptops, MacBooks, Ultrabooks, Chromebooks, Surface devices, as well as smartphones and tablets. With USB-C On-The-Go support, you can even access your memory cards directly from compatible Android devices, while full support for USB-C iPhones and iPads ensures maximum versatility.

Plug, Play and Go

No drivers, no setup - just plug it in and start working. The reader/writer is bus powered, so there's no need for an external power supply. Features like hot swapping and backward compatibility with USB 2.0 and 1.1 devices ensure a smooth and reliable experience in any environment.

Premium Design for Everyday Use

Housed in a sleek aluminum enclosure, this compact card reader combines durability with a modern look. Its small footprint makes it ideal for both desktop setups and travel, giving you reliable performance wherever you need it.

Features:

- Four slots for quick USB access to SD, microSD (TF), CF and Memory Stick (MS) cards, including SDHC/SDXC and microSDHC/microSDXC formats
- Four slots for quick USB access to SD, microSD (TF), CF and Memory Stick (MS) cards
- USB 3.2 Gen 1 (formerly USB 3.0) compliant, supporting SuperSpeed transfer rates up to 5 Gbps
- 2-in-1 combo cable, 0.5 m (1.6 ft.), with USB-C and USB-A plugs
- Bus powered: no external power supply needed
- Compatible with Windows, macOS, Linux, Chrome OS, Android, iOS, and iPadOS
- Great for laptops, MacBooks, desktop PCs, Ultrabooks, Chromebooks, notebooks, Surface devices, phones, tablets, and more
- USB-C On-The-Go technology to use the card reader with Android smartphones like Samsung Galaxy, Google Pixel, and many more
- Compatible with iPhone 15/16/17, iPad Pro, and iPads with USB-C port
- Plug-and-play installation; no configuration or drivers required
- Backward compatible with all USB 2.0 and 1.1 devices

- Supports Hot Swapping
- Sleek aluminum housing with small footprint, great for desktop placement and travel
- Three-year warranty
