

SYSTEM COOLER REFERENCE GUIDE

MODEL 210140

Thank you for purchasing the MANHATTAN® System Cooler, Model 210140.

Easily installed in a standard PCI slot, it helps circulate cool air through the case in order to eliminate “hotspots” over graphics cards and other high-activity components and lower internal temperatures when extra fan openings aren't available.

- Ideal for new systems, upgrades and replacements
- Easily installs in a standard PCI slot with four-pin Molex
- Sleeve bearing delivers quiet, reliable operation
- Lifetime Warranty
