RJ11/12 & RJ45 Tester

Cable Tester for RJ11/12 and RJ45

Part No.: 780087

EAN-13: 0766623780087 | UPC: 766623780087

Use the Intellinet Network Solutions RJ11/12 & RJ45 Tester to test twisted pair, straight or crossover Cat 5e or Cat 6 cables with RJ11 or RJ45 connectors. Simply turn on the tester, connect one end of the cable to the Master side and the other end to the Remote side. LED lights indicate any issues with connectivity. This must-have tool for the network installer or computer enthusiast runs on a single 9-volt battery (sold separately).

Features:

- Tests multiple wire types: RJ11, RJ12 and RJ45
- Easy to use
- Checks lines for short circuits, wire reversals and cable defects
- Remote unit with integrated LED displays for 8 individual wires
- Powered by 9V battery (not included)

Specifications:
