TELCHAC PUERTO

Telchac Puerto is a splendid destination located 65 kilometers northeast of the city of Mérida.

It is a natural paradise that offers an amazing sensory experience which starts on your way there and continues during your stay.

Its astonishing beaches are part of the Gulf of Mexico—an unmissable tourist route, providing an opportunity to enjoy not only their beauty, tranquility and harmony, but to experience enjoying the natural splendor of its land and sea right at your own doorstep.

In Mayan language, the name *Telchac* means

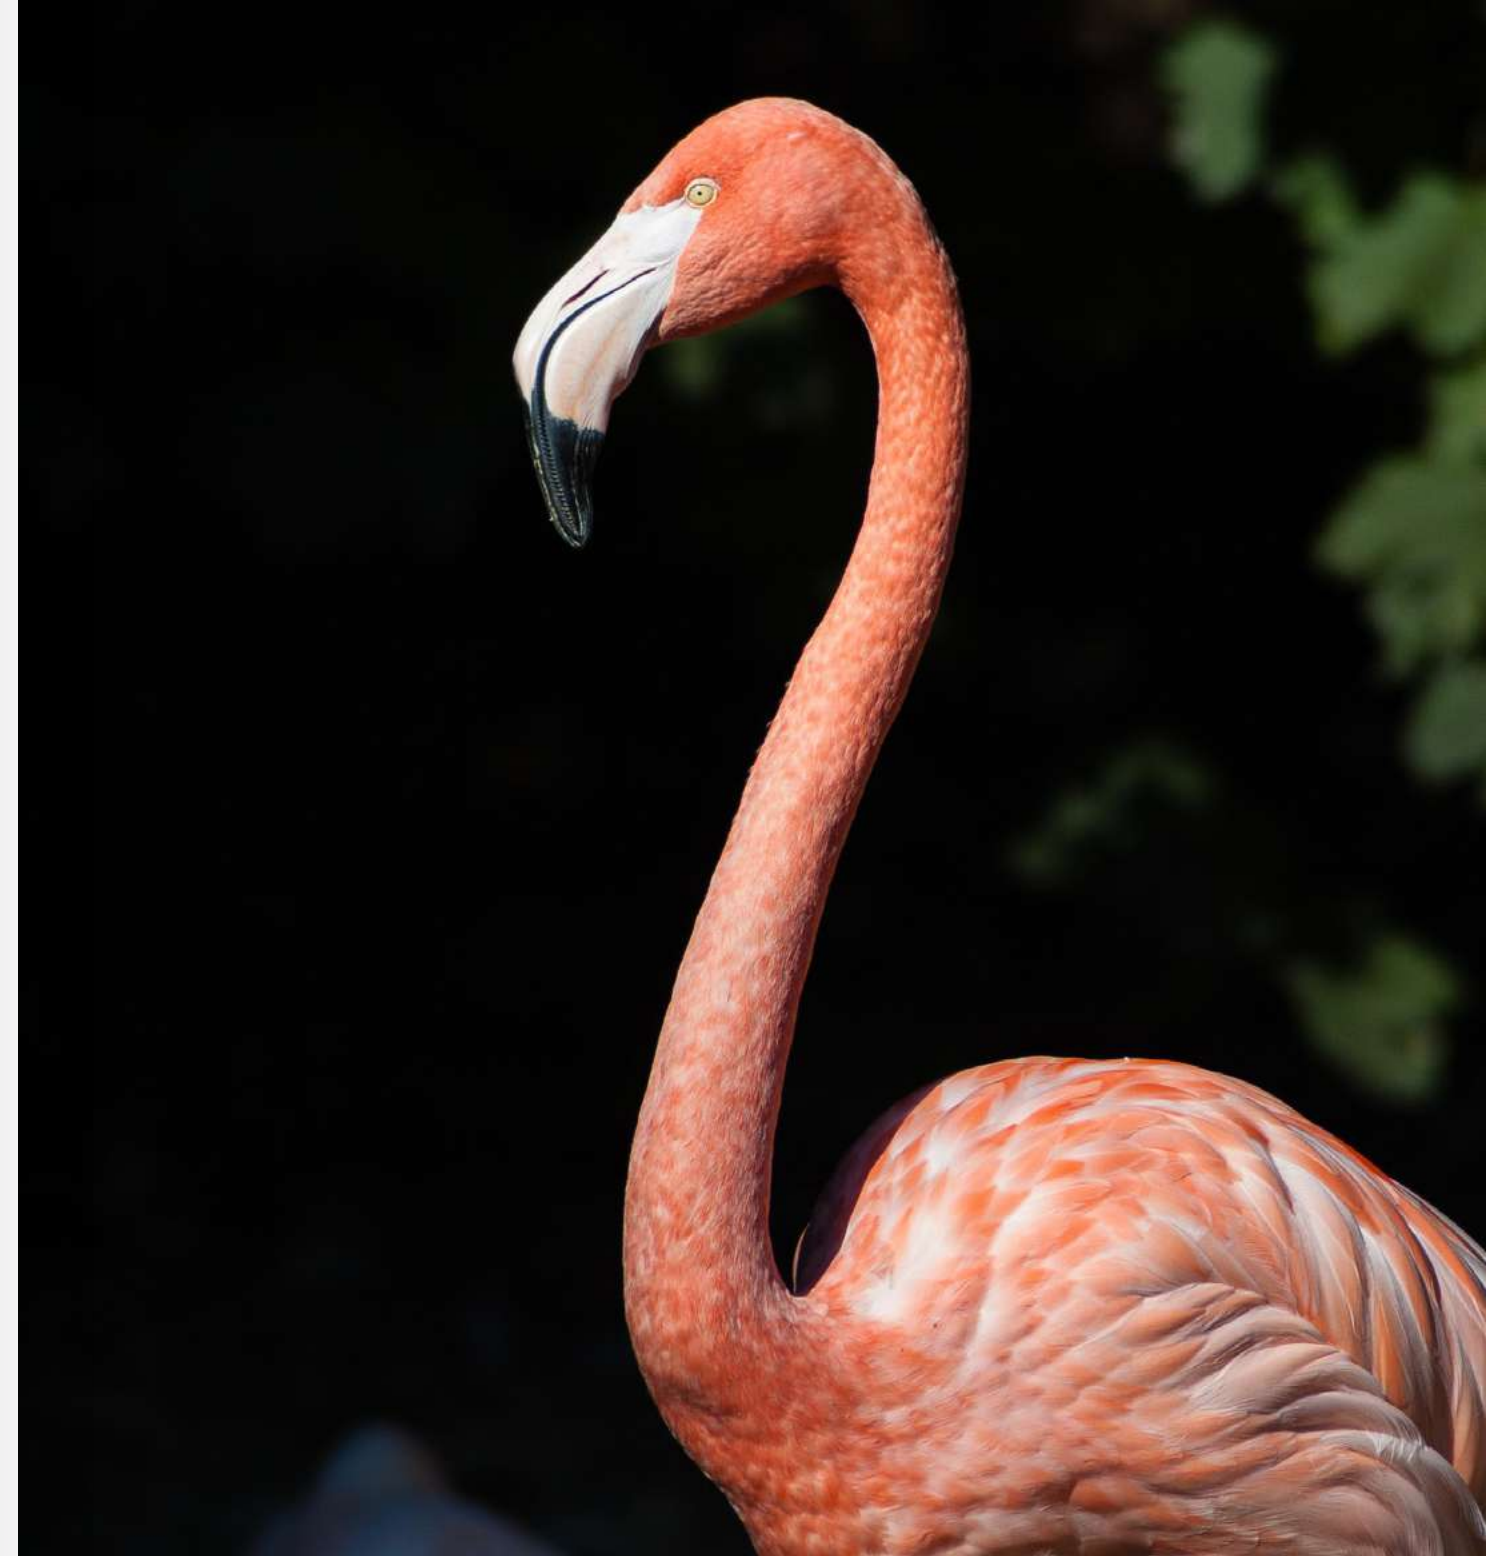

“the necessary rain.”

Its ancient history starts with the harbor, which has been widely used since its foundation. With a quaint town square, a small boardwalk and a large lighthouse, a very picturesque scenery emerges from this famous site.

This place has become one of the most attractive destinations to rest in an environment of comfort right in front of the beautiful, calm and crystal clear waters of the beaches in Telchac Puerto.

Nearby, you can find a wide variety of tourist attractions, such as the *Laguna Rosada* (Pink Lagoon), which is a magnificent ecological reserve for migratory birds, and *Xcambó*, a peculiar archaeological area that brings together several pyramids and historical Mayan roads.

Aura Coast Telchac is located on the most attractive and exclusive beach of this town and it is the perfect setting for an amazing life in the state of Yucatán.
