TOP 10 PACKAGES†*

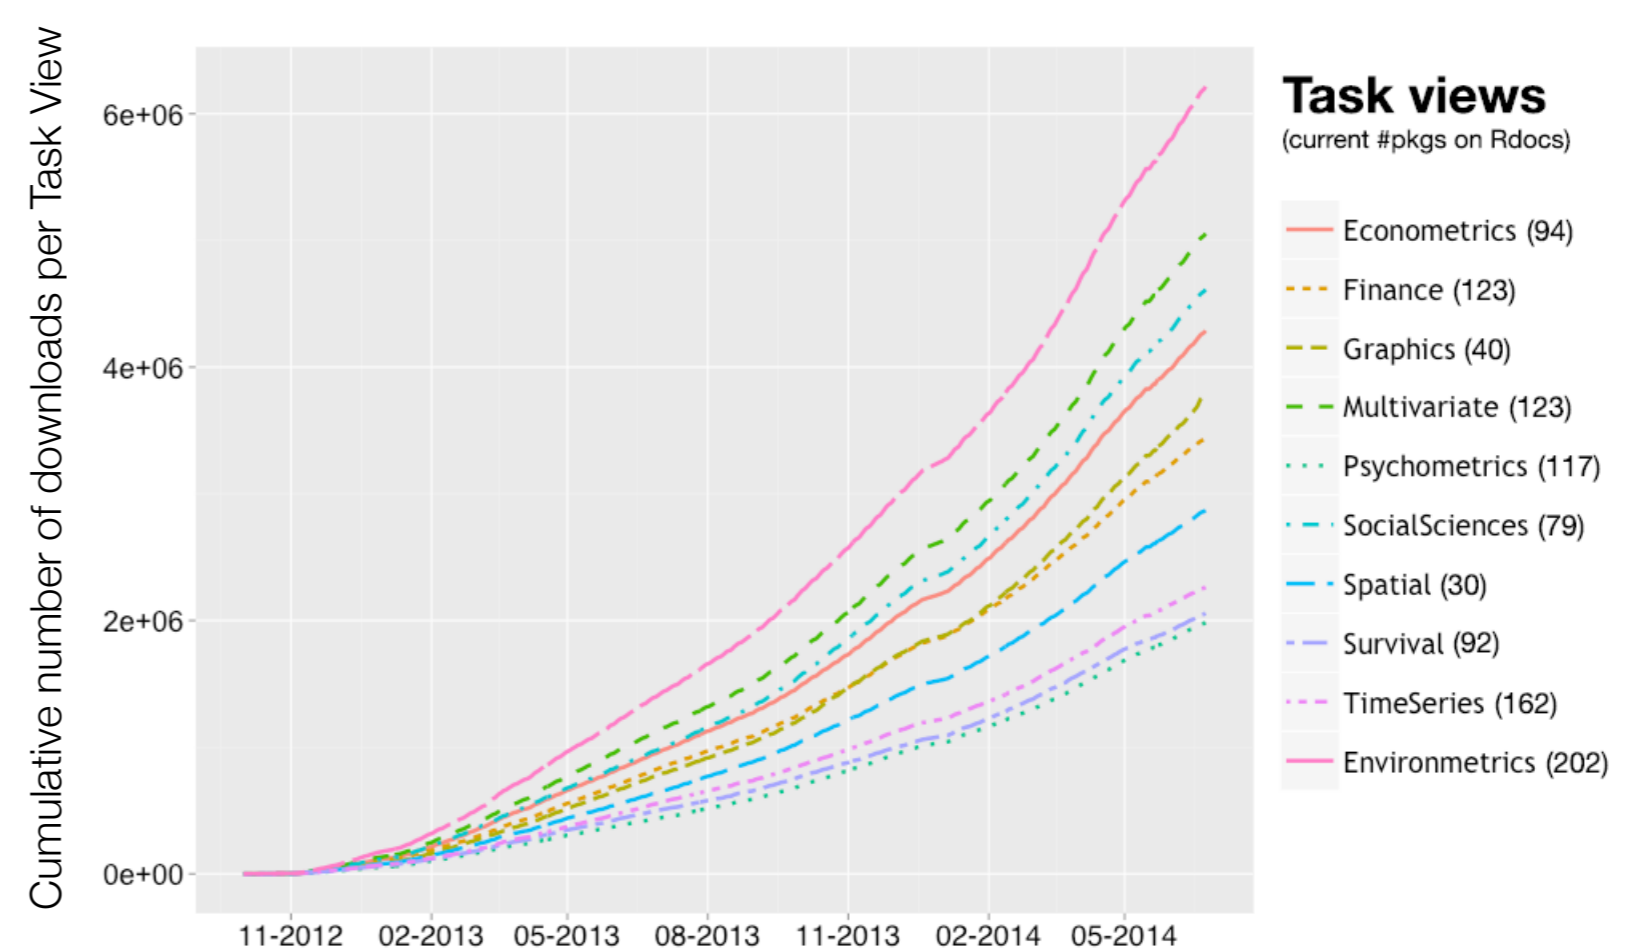

WHO MAINTAINS THE MOST PACKAGES?

THE RISE OF GitHub †

EVOLUTION OF CRAN PACKAGE DOWNLOADS†

WHAT?

- Search CRAN, Bioconductor and GitHub
- Always latest R manuals and help files
- Get email notification when a package updates
- Package popularity and rankings
- Discuss packages with fellow R enthusiasts

WHY?

- Need for aggregator combining CRAN, Bioconductor and GitHub
- Growing repositories require advanced search functionality
- Rise of alternatives to CRAN makes finding packages tedious
- Package authors no longer (immediately) release to CRAN
- Participate in package-specific discussions

FUTURE

- Integration with RStudio IDE
- Package rankings per Task View
- Aggregation other R repositories such as R-Forge
- Public API for R manuals and help files
- Visualization of dependency trees for all R packages
