

# Celebration Sponsorship Update

## Mozambique

### 91 Salvations!!!!

In February, we spent time reviewing and teaching the foundations of salvation. At the end of the month the kids where offered the opportunity to accept Christ. We had 91 kids accept Christ last week! We are so thankful for what God is doing in the lives of our children. Please continue to pray for their spiritual growth and development. Pictured here is our bible teacher with the 5th graders. These students are learning about how God made us with a body, soul, and spirit. We are so thankful for Professor Mateus as he pours into our students.

### Construction Update

We are thankful for the progress on the five classroom addition, for we are in desperate need for this space. Our 8th graders are meeting in the science lab until construction is completed. Thank you for those who have given towards the construction projects. We are truly grateful for your generosity.

**Send a letter or video to your child!**

The kids loved receiving letters, photos, and videos from their supporters. Thank you for those who have taken the time to write to your child. Linda reads the letters to our kids and helps them with writing their supporters back. Check out last month's newsletter for details.

### DID YOU KNOW?

While Portuguese is the official language in Mozambique, it is our students second language. Their first language is Changan. When our preschoolers arrive to our school most of them do not know any Portuguese. This is why preschool is so important. By learning Portuguese in preschool, they will start first grade ready to learn the Mozambican school curriculum.
