## GOS Prebiotic Meal Replacement

A BETTER MEAL  
REPLACEMENT  
EXPERIENCE

PROVIDES  
NATURAL SKINCARE  
BENEFITS

IMPROVES  
GUT HEALTH

## A Beauty Shake with Nutritional Benefits

This tasty shake is packed with 15 grams of protein and a mere 80–90 calories in every serving. Plus, with the addition of galacto-oligosaccharides (GOS), it also has clinically proven cosmetic benefits.

### Benefits of Nourish

#### A Better Meal-Replacement Experience

We use bio-fermented vitamins and chelated minerals to imitate how real, natural food interacts with your body, resulting in better nutrient absorption and utilization.\*

#### Provides Natural Skincare Benefits

GOS helps increase hydration through an improvement of the barrier function of the skin and higher protection against photoaging.\* It has also proven to reduce redness, inflammation, and wrinkles.\*

#### Improves Gut Health

GOS is a prebiotic fiber that acts as food for the “good” bacteria in the intestine to improve the regulation of your local microflora for a healthier microbiome.\*

### The Gut-Skin Connection

There is an undeniable relationship between the gut microbiome and the skin. Nourish rebalances the ratio of good bacteria in your microflora, leading to lower inflammation and oxidative stress and improved skin health.\* GOS also makes postbiotics that help to improve gut acidity for better water and mineral absorption in the colon, strengthen the gut for a better gut barrier and improve immune function.\*

### Ingredients that Set Us Apart

#### Oliglow® GOS

With a greater prebiotic activity than other commercial GOS, Oliglow promotes larger growth of beneficial bacteria and supports the modulation of immune cells in the gut.\*

#### Biofermented Vitamins and Chelated Minerals

These elements mimic how natural food enters the body, allowing for better nutrient absorption and utilization\*—a differentiating factor for a meal-replacement shake.

#### Proprietary Superfood Blend

A blend of whole-food greens that balance the gut and fight against chronic disease\* and other nutrient deficiencies.
