

XTREME BUILDER BONUS

Generate excitement and drive rapid growth in your business to earn up to \$9,000 in bonuses, in addition to your commissions from the Xyngular Compensation Plan, during your first 105 days with Xyngular.

PROGRAM GUIDELINES:

- No more than 60% of the QV to qualify for these bonuses can come from any one leg.
- There is no XV requirement to qualify for the Xtreme Builder Bonus.
- Orders that are both purchased and returned within the qualification period will not count towards the QV total.
- Bonus periods will not be extended. All volume must be generated within the allotted number of days.
- The clock for the Xtreme Builder Bonus starts on the day of sign up as a Distributor or Member and does not start over in the case of an upgrade from a Member to a Distributor.
- Distributor must have 120PV in each calendar month to be qualified for the bonuses.
- If a Distributor achieves 30,000QV during the first 45 days, they would earn both the \$2,000 (period 1) and \$3,000 (period 2) bonuses and their clock for the third bonus (40,000QV) starts on day 46 and ends on day 75.
- If a Distributor accumulates 40,000QV within their first 45 days, they will receive the entire \$9,000 Xtreme Builder Bonus (for all 3 bonus periods) in addition to their normal commissions.

INDIVIDUAL BONUS PERIOD GUIDELINES:

BONUS PERIOD 1

- The first Xtreme Builder Bonus period is 45 days long, with the first period beginning on the day of sign-up (the day of sign-up is day 1, regardless of the time of day enrollment occurs).
- The \$1,000, \$1,500, and \$2,000 Xtreme Builder Bonuses in bonus period 1 are not cumulative. A Distributor will be paid for their highest achieved bonus.
- If a Distributor does not accumulate enough volume in their first 45 days to qualify for first Xtreme Builder Bonus, they are still eligible to qualify for the bonuses in the 2nd and 3rd periods if they reach the required volume (30,000QV in period 2 and/or 40,000QV in period 3).
- If a Distributor hits the bonus in the first period but misses the second, they are still eligible to go for the third.

BONUS PERIOD 2

- The second bonus period begins 46 days after sign-up and concludes 75 days from sign-up.
- If a Distributor misses the bonus in the first period, they are still eligible to go for the second and third.
- If earned, the payment at 30,000QV is in addition to what the Distributor earns on their first 45 day Xtreme Builder Bonus. For example, if a Distributor accumulates 30,000QV in their second Xtreme Builder period (days 46-75), they will receive a bonus payout of \$3,000 for period 2 (potential \$5,000 total from sign up).

BONUS PERIOD 3

- The third bonus period begins 76 days after sign-up and concludes 105 days from sign-up.
- If a Distributor misses the bonus in the first two periods, they are still eligible to go for the third.
- If earned, the payment at 40,000QV is in addition to what the Distributor earns on any previous Xtreme Builder Bonus. For example, if a Distributor accumulates 40,000QV in their third Xtreme Builder period (days 76-105), they will receive a bonus payout of \$4,000 for period 3 (potential \$9,000 total from sign up).
