

# Are You Using The **BEST** Diesel Fuel Additive On The Market?

Stanadyne compared their formula\* against 7 other diesel additive brands to prove theirs is the best. The only problem? They didn't compare it against **DTech Diesel Fuel Upgrade**.

**DTech Diesel Fuel Upgrade** offers you more cetane, more lubricity and a lower cold filter plug point. Based on Stanadyne's criteria (see below) our additive formulas are superior to Stanadyne's formulas. Start using **DTech Diesel Fuel Upgrade** today. For more information about how **DTech Diesel Fuel Upgrade** is a better fuel additive to protect your diesel vehicle, visit [dipacodtech.com/dieselfuelupgrade](http://dipacodtech.com/dieselfuelupgrade).

# DTech Diesel Fuel Upgrade

**DTech Diesel Fuel Upgrade** comes in two different formulas - DieselMAX and DieselBOOST. If you need extra protection in those cold winter months, each has a winter formula. See which **DTech Diesel Fuel Upgrade** is right for you.

## DieselMAX

### Regular Formula:

- Easy to use ONE SHOT bottle treats 30 gallons.
- Convenient sized container.
- No measuring, spilling, or odor in your vehicle.
- Increases Cetane up to 8 points for improved power and performance.

### Winter Formula:

- Easy to use ONE SHOT bottle treats 30 gallons.
- Convenient sized container.
- No measuring, spilling, or odor in your vehicle.
- Helps prevent fuel gelling and lowers cold filter plugging point.
- Added Cetane for easier cold starts.

## DieselBOOST

### Regular Formula:

- Super-concentrated - 2 oz. treats 30 gallons.
- Increases Cetane for added power and performance.

### Winter Formula:

- Super-concentrated - 2 oz. treats 30 gallons.
- Helps prevent fuel gelling and lowers cold filter plugging point.
- Added Cetane for easier cold starts.
