## For Immediate Release

August 23, 2022

## Tresco® Lighting Announces Controller Design Updates.

Louisville, KY – August 23, 2022 – Tresco® Lighting, the leader in premier LED lighting solutions for residential and commercial applications, has announced a new two-door sensor option, a design enhancement, and a name change for their existing oval controllers.

The newly dubbed Round Controllers are compatible for controlling all Tresco® 12/24VDC single-color lights and come in four versions, a NEW two-door, a single-door, a touch dimmer, and a motion sensor. Available in black\* or nickel finishes, they feature a NEW standard 1/2" (13 mm) diameter, shorter length, and easy, simple connect connectors for easy wiring.

Round Single Door, Two-Door and Touch Dimmers are now available online at <https://www.trescolighting.com> or by calling 800-227-1171. Round Motion Sensors will be available Fall 2022.

\*Black motion sensors are available by special order; contact Tresco® for more details.

### About Tresco® Lighting

Since 1989, Tresco® has been committed to exceeding market demand by developing innovative and affordable products reinforced by unparalleled quality and service. Winner of several industry awards, Tresco® is the leader in premier lighting solutions for residential and commercial millwork, including hospitality, store fixtures/displays and backlighting indoor signage.

With in-house design, patented products, and over 30 years of "Innovation Through Illumination," their product offering has expanded to include cutting edge products such as color-tunable and chip on board flexible lighting and wireless technology. In 2011, Tresco® was acquired by Rev-A-Shelf, the leader in home storage organization located in Louisville, KY, to expand its product offering and customer base.
