

## PLATINUM CASEMENT

Armor Casement windows are made with 40+ years of know how. Custom Armor Casements are made to suit your needs. A Casement window operates by swinging out the sash of the window vertically. This provides ventilation and can be hinged from the left or right side. Armor Casement windows feature a simulated exterior stop with bevel edge to accent the beauty.

Armor casements in a standard 3 1/4" frame depth can be customized with various jamb options.

Triple weather seals made from santoprene rubber and schelegal prevent air and water leakage.

Durable stainless-steel hinges and sash tracks are guaranteed not to rust.

Fusion welded sash and frame with multi-chamber design for added strength and insulating value.

Truth Encore hardware with lifetime guarantee provides years of effortless operation.

Endur IG™ Spacer provides superior insulation. Can be combined with LoE and Argon gas.

## ALSO AVAILABLE IN AWNING.

Platinum Awning Windows operate much like a Casement however open outward with a scissor hinge on the bottom of the window.

## PROVEN PERFORMANCE.
