

Immediate Release

Atomos Appoints CDM Technologies and Solutions as New Distributor in Northern & Eastern India

Melbourne, Australia – 9st November 2015: As part of Atomos' on-going commitment to growth worldwide, today they announced a strategic partnership with CDM Technologies and Solutions. This partnership will see CDM Technologies and Solutions distribute Atomos products and services in Northern & Eastern India.

“There is a tremendous growth opportunity for Atomos in Asia and specifically India. Our new relationship with CDM Technologies and Solutions will allow us to grow our reach with a trusted partner in the region. CDM Technologies and Solutions have a sound reputation for not only distributing media products, but also expanding the reseller channel,” said Robert Song, Vice President of Atomos, Asia Pacific. “I look forward to working with a team that truly understands Atomos' vision to grow globally.”

“We're honoured to be welcomed into the Atomos family and to distribute their range of award-winning products. Atomos represents the key qualities of companies we enjoy working with. They are innovative, fast moving and client orientated and we look forward to expanding the reseller channel and enforcing Atomos' product line-up amongst the photography, film and broadcast industries in India,” said CEO of CDM Technologies and Solutions, Dilip Kathuria.

Headquartered in New Delhi, CDM Technologies will distribute the full line up of Atomos' award winning camera-mounted recorders and recording accessories including the Ninja Blade, Samurai Blade, Ninja Star, Shogun, Ninja Assassin and the newly released Shogun Studio.

About Atomos

Atomos exist to help creative professionals cut through technology barriers by creating easy to use, cutting edge products including 4K & HD Monitor-recorders, a pocket size ProRes recorder, signal converters & power management solutions. Each product serves a different need but all share the common benefit of enabling a faster, higher quality and more affordable production schedule for video professionals.

Atomos is based in Australia with offices in the USA, Japan, China and Germany and has a worldwide distribution partner network. Further product information can be found at www.atomos.com with the Atomos community active on Facebook (/atomosglobal), Twitter (@Atomos_News), Vimeo (/atomosvideo), Instagram (Atomos)_News), YouTube (/AtomosVideo) and Videogram (atomos.videogram.com).
