Budget to Support Goals	30

I. Current District Status

A. Supportive Environment

1. Mission and Vision

a. District Mission Statement

b. District Vision Statement

Bringing a World Class Education to Rural North Florida! Preparing College & Career Ready Students

c. Link to the district's strategic plan (optional)

No strategic plan link stored

2. Supports for School Improvement

a. Alignment of Resources

Describe the process through which the district identifies and aligns all district resources (e.g., personnel, instructional, curricular, policy) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs to align to interventions in Priority and Focus schools. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.

The district leadership team meets on a weekly basis to discuss progress monitoring data, resource allocation, and policies and procedures to ensure consistency across the district. The Assistant Superintendent is responsible for allocating resources according to needs and monitoring those resources to ensure fidelity. The leadership team collaborates using a modified version of the FCIM Problem Solving Model to determine how to best utilize resources for the highest impact on student learning and achievement.

Inventory of resources are maintained through the following means: certificated instructional personnel as well as non-instructional personnel are managed through a collaborative effort of the Director of Human Resources, Frank Moore and the Assistant Superintendent, Narragansett Smith. The allocation of human resources is based on a staffing formula in addition to the recommendations of the DA Team. Tangible resources such as Instructional coaches and Curriculum Resource Teachers are managed through the Instructional Services Department. Policy and Procedures are developed through a collaborative effort of all district department heads, approved by the school board and implemented by the Superintendent. Fiscal planning and responsibility is a multi-tiered process between local, state and federal funds. The Assistant Superintendent, Narragansett Smith, and the Director of Finance, Bonnie Penner, are responsible for maintaining local and state funds. Federal funds are maintained by the Director of Federal Programs, Joe Adkins and the Director of Special Services, Lynn Jamison.

Federal Funds are used to supplement and enhance student achievement and professional learning above and beyond that which is provided to all schools within the district. Instructional coaches support all schools in the district. Additionally, Teacher Support Colleagues, funded by the Teacher Incentive Fund Grant, support the schools in the following manner: a Mathematics TSC for grades K-5 and one for grades 6-12; one Science TSC for grades 5-12. Title VI and Title I funds are used to provide tutors for extended learning opportunities that provides intensive remediation for struggling students who are not meeting state proficiency levels in Reading and Math. Web-based differentiated supplemental instructional programs such as Study Island are provided for the purpose of remediation and enrichment. Professional Development days are provided for data driven decision

making, curriculum alignment and sharing of best instructional practices. The School Improvement Initiative 1003(a) grant is supporting the integration of Language Acquisition in the English Language Arts block at Fort White Elementary, Melrose Park Elementary and Niblack Elementary. Additionally, extended learning opportunities are provided during the summer to Title I schools to facilitate remediation to struggling students. This is provided for through Title I and the School Improvement Grant 1003(g) for Richardson Middle School. Moreover, additional professional development activities are enhanced through the coordination of Title I, Title II, Title VI funds, local school funds and professional development activities provided for through the DA Team.

b. School Allocation Process

Describe the way in which the district allocates resources to schools. Include the person(s) responsible for this process, frequency of data review and decision making, and processes used to differentiate and monitor resource supports.

The resources provided by the district include: Instructional Coaches, Curriculum Resource Teachers, Web-based differentiated supplemental instructional programs that provide remediation and enrichment, District Professional Development Coordinator, Web-based professional development program that differentiates and individualizes professional development, support for school-based decision making through the eight step process, support in data analysis through Performance Matters and tutors that provide intensive remediation for students that need further differentiation.

The district provides access to Performance Matters to all school sites and district level administrators. Performance Matters is a comprehensive assessment and data management system that provides access to student data on formative assessments and state assessments in the areas of reading, mathematics and science. In addition, reports from the district management system are prepared as requested to analyze behavioral data.

The district provides support for data analysis in the form of embedded professional development; financial support for data chats at the elementary level; common planning time at the secondary level; and school psychologist meetings and discussion at individual schools after each administration of the district progress monitoring assessments. Additional data chats are conducted as needed based on a data review of benchmark mini assessments. These data chats are led at the school level by the school-based leadership teams.

Instructional Coaches serve each school in the district to provide vertical curriculum alignment and instructional practices as well as mentoring, modeling of instructional practices and providing leadership in the development of lessons.

The district leadership team meets on a weekly basis to discuss progress monitoring data, resource allocation, policies and procedures to ensure consistency across the district. Additionally, through the monitoring process, Instructional Coaches may be temporarily reassigned to schools as additional resources to provide intensive intervention and support in the areas of need.

The district is being supported by the Region 2 DA team, per the request of the Superintendent. The DA team in conjunction with district level as well as respective school-based leadership conduct instructional reviews and classroom walk-throughs. Following each instructional review, a debriefing occurs in which areas of instructional practices, student engagement, rigor and relevance are discussed to identify successes and areas of focus that require additional supports. In addition to the instructional reviews, the DA team provides support through professional development.

Elementary principals meet monthly with the Coordinator of Elementary Education, Wendy Stevens and the Director of Teaching and Learning, Beth Bullard. Secondary principals meet monthly with the Director of Secondary Education, Kay Dekle, and the Coordinator of Educator Quality, Assessment

and Accountability, Anthony Giddens. These meetings include timely professional development for administrators, sharing of best practices that lead to student achievement that is based on data, discussions on curriculum alignment with instructional materials, and specific data analysis.

Monthly meetings are also held to facilitate collaboration between all district directors and school based administrators. Participants include the Superintendent, Assistant Superintendent, Director of Purchasing, Director of Human Resources, Director of Finance, Director of Special Services, Director of Federal Projects, Director of Technology Infrastructure and Networking, Director of Teaching and Learning, Director of Secondary Education, CTE, and Virtual School, Coordinator of Educator Quality, Assessment and Accountability, Coordinator of Elementary Education and Professional Development and all school principals.

c. Modifications to System Policies and Practices

Identify specific policies and practices the district shall seek to add, modify or remove in order to establish or strengthen systems that support school-based leadership teams to implement interventions. Provide the rationale for the proposed changes and the steps required to make the modifications, including person(s) responsible for implementation and follow-up.

Based on the identified barriers to the school improvement goal of creating an enhanced, more systemic MTSS across the district, school leadership would need the following systems/strategies revised to help support the success of these interventions (primarily Tier 1). All of these changes/revisions would allow the school leadership, with backing from the district, to have the ability to make decisions and build individualized systems of accountability that would make school improvement initiatives more effective, meaningful, and lasting:

Data-driven differentiated instruction

- Ability to train all teachers in data-driven differentiated instruction, with the training itself differentiated based on teacher comfort level and need. Schools will need the flexibility in the PD design to customize to their school's needs.
- School leadership needs the district leadership support in making reflection and application (use) of PD concepts/strategies with accountability reflected in teacher observations, walk-throughs and instructional reviews.
- PD: Time to provide PD is often given during planning time or teachers are pulled out and given a sub for workshops, etc, PD opportunities have been increased by adding two professional development days to the school calendar. Schools are making use of TIF grant funds to provide stipends for after school PD. The District PD Coordinator is planning for PD activities during the school day and after school to meet the preference of classroom teachers as determined by surveys.

Persons responsible: District turnaround lead and school principals

Implementation and follow-up: School leadership teams (especially administrators), teacher leaders (such as department heads) and instructional coaches

Rigorous or relevant standards-based instruction across subject areas

- School leadership will receive the autonomy to customize/select the PD necessary for their particular needs, based on school level (elementary or secondary) and previous school improvement initiatives.
- School leadership needs the district leadership's support in ensuring application (use) of PD concepts/strategies and reflection evident with accountability supported by teacher observations, walkthroughs and instructional reviews.
- PD: Time to provide PD is often given during planning time or teachers are pulled out and given a sub for workshops, etc, With support from the district leadership, PD opportunities are to be increased through additional teacher workdays (this proposal is still in the approval process). With additional teacher workdays, at least half of those days could be devoted to PD in focused topics which support

MTSS, including data-driven differentiated instruction.

Persons responsible: District turnaround lead and school principals

Implementation and follow-up: School leadership teams (especially administrators), teacher leaders (such as department heads) and instructional coaches

Efficient use of existing learning time

- School leadership will have the ability to hold teachers accountable for efficient use of existing learning time by conducting observations, walkthroughs and instructional reviews and then making specific requirements for improvements where necessary.
- School leadership needs the district leadership support in making reflection and application (use) of PD concepts/strategies with accountability reflected in teacher observations, walkthroughs and instructional reviews.
- PD: Time to provide PD is often given during planning time or teachers are pulled out and given a sub for workshops, etc, Again, with support from the district leadership, PD opportunities are to be increased through additional teacher workdays (this proposal is still in the approval process). With additional teacher workdays, at least half of the days could be devoted to PD in focused topics which support MTSS, including data-driven differentiated instruction.
- Implementation and follow-up: School leadership teams (especially administrators), teacher leaders (such as department heads) and instructional coaches.

d. Operational Flexibility

Provide the district's definition of "operational flexibility"? provided to schools implementing a District-Managed Turnaround option under section 1008.33, Florida Statutes, or a Turnaround, Transformation or Restart with EMO model under the SIG 1003(g) program as it applies to school-level autonomy over staffing, scheduling and budgeting.

The school administrative team is given the autonomy to staff the school as needed within the parameters as outlined in state and federal guidelines for highly qualified teachers. The principal is allowed the flexibility under the guidance of the respective Assistant Superintendent to place teachers and staff in positions that best meet the needs of the students as well as the effective operation of the school. The union contract provides principals the flexibility to make considerations in the hiring of instructional personnel within the district who are requesting to fill a vacancy. The principal has the flexibility in the hiring practice to place the academic need of the school, experience as well as the effectiveness of the teacher, as the focus of the hiring process rather than seniority. The district is providing schools the flexibility to structure the master schedules in order to address increased learning time and increased time for professional development. School principals are provided flexibility to budget funds allocated to the school within District, State and Federal guidelines. Additional resources will be allocated to the schools and these could include additional staff, equipment, and financial allocations. By implementing these strategies, and allowing for needed flexibility, the expectation is that student performance will improve in the targeted areas, and ultimately, lead to higher graduation rates. Summative data will be reviewed annually to determine appropriations for the following year for human capital, curriculum materials/technology, and fiscal resources.

3. Sustainability of Improvement

a. Describe how the district will sustain improvements that are a result of the interventions described in Part III of this plan after the schools' Differentiated Accountability designation of Focus or Priority is removed. Include any plans to reorganize personnel, redistribute resources or reach out to community organizations, unions and other partners to build capacity for and sustainability of improvements.

The following information relates only to the school that received the SIG Grant: Richardson Middle School.

- Re-Organize Personnel

- The targeted school will have the operational flexibility to staff the school in such a way that best promotes student achievement. The review of data will be the driving force behind such placements and a rationale will be given for each new instructional hire.

- After the grant has expired, the additional instructional coach will transition to STEM specialists to assist the district in promoting STEM proficiency to all students. This position will continue to be funded by monies procured through redistribution of resources and realigning the educational foundation as current teachers retire, along with funding derived from community/business partnerships. An example of the district's ability to foster partnerships with local businesses, city and county municipalities is the robotics and logistic academies located at Columbia High School.

- The STEM coach, during the implementation period, will have built capacity within the district and affected schools. This capacity will continue to be utilized and sustained by teachers at each school site, with ongoing monitoring done through data analysis and instructional reviews at least twice a year (fall and spring) by school and district leadership teams. An annual needs assessment will also be done and will be based on summative assessment results.

- Re-Distribute Resources

- The additional instructional coach that is on staff will be sent out as a member of the "Rapid Strike" Support Team that can be deployed to any school that needs intensive intervention based on student need. The "Rapid Strike" model was used during the school year 2013-14 with the existing instructional coaches.

- Materials purchased through the SIG grant at Richardson Middle School will be utilized through increased STEM offerings.

- The efficacy and sustainability of CTE programs at the secondary level will be reviewed, based on number of participants and amount of industry certifications offered/achieved by program. Following an annual review by district leadership, including the CTE program coordinator, programs that are not effective or sustainable will have resources (including human capital) shifted or replaced to build/sustain instructional capacity in areas of need, and/or student interest, such as certain STEM offerings.

- District leadership team will continue to annually review allocation and use of all resources (including human capital). This review will lead to the redistribution of resources to areas of need based on student interest, policy changes, and summative data analysis. This will be facilitated and supervised by the district turnaround lead, who will make final recommendations for appropriations targeting school improvement efforts to the Superintendent. Support in the decision-making process will be supported/informed with input from the FLDOE Region 2 DA Team, especially for schools who have a specific DA status.

- Reach out to Parents, Community Organizations: Unions, Civic Groups, Other Business Partners

- Parents will be invited to participate in the decision-making process for school improvement through the CAT team, community-wide meetings regarding model selection, and open house events at schools that are selected for SIG. Multimodal marketing and communication strategies will be used through the school districts' automated calling system, Web sites (district and school), e-mail lists, district app, and newspaper announcements.

- Prior to the grant expiring, funds will have been solicited from various organizations within our community that have an interest in promoting STEM education which will in turn increase the number

of STEM proficient students within our district.

- Form Partnerships (funding):

Columbia County Public School Foundation, HAECO, Target, US Cold Storage, hospitals, timber companies, military, and FDOT

- Coordination of federal and state funds occur in the following manner:

- Title I, Title II, Title VI, TIF, and local funds collaborate to provide professional development opportunities to assist teachers in developing skills needed to work with students to improve academic achievement among all subgroups;

- Title I and Title II collaborate to provide reimbursement to out of field NCLB core teachers who take and successfully pass the teacher certification exam and/or subject area exam providing the coverage is added to their certificate. Additionally, reimbursement is provided for the costs to add the coverage to their certificate;

- Titles I, Part A and Title II, Part A collaborate to provide PD360, which is a web-based on-demand professional development suite that can be tailored to the individual need of the teacher or instructional paraprofessional;

- Title I, Title II, and local funds (Reading Allocation) collaborate to provide schools with Instructional Coaches for embedded professional development, mentoring, modeling of best practices and data analysis of student achievement data to help assist with data driven instructional planning;

- Title I, Part A collaborates with Title I, Part C administered through the Alachua Multi-County Migrant Education Program to provide services to migrant students and their families;

- Title I and Title X collaborate to provide needed and necessary services, materials, supplies to all homeless students;

- Title I and ESE collaborate to avoid duplication of services provided by Title I and IDEA and maximize resources;

- Title I and VI collaborate with extended learning opportunities (tutors);

- Title VI and Title I collaborate with technology/software purchases.

B. Stakeholder Involvement

1. Parental Involvement Plan (PIP) Link

<https://www.floridacims.org/documents/361881>

2. Family and Community Engagement

Describe the district's *ongoing* mechanisms for engaging families and the community in school improvement efforts

The district website at <http://columbia.schoolblocks.com/> is a continuous source of information for parents and community members. Each of the schools has a School Advisory Council in Place and are in accordance with Florida Statutes. Individual schools schedule parent involvement activities that are correlated to school improvement efforts.

3. Engagement of School Leadership

Describe how the district involves school leadership in the development and implementation of turnaround plans and other school-level interventions

The district holds bi-monthly meetings which involve school leadership. During these meetings, issues related to district initiatives are discussed. Site based administrators provide input and feedback on issues addressed at these meetings. In addition, frequent electronic communication is utilized to request input on various initiatives. School based administrators are also involved in

C. Effective Leadership

1. District Turnaround Lead

a. Employee's Name and Email Address

Hill, Cherie, hillc@columbiak12.com

b. Employee's Title

Assistant Superintendent

c. Employee's Phone Number

(386) 755-8015

d. Employee's Phone Extension

e. Supervisor's Name

Lex Carswell

f. Supervisor's Title

Superintendent

g. Employee's Role and Responsibilities

Accountability for implementation of the Transformation Model will be coordinated by the Assistant Superintendent

Turn Around Lead Role and Responsibilities:

- Monitor implementation of the SIP
- Monitor the administration of interim assessments
- Conduct conference calls with the school principal. The focus of these calls will be on the implementation of the strategies of the grant and student progress.
- Facilitate the provision of appropriate professional development
- Assist in the coordination of resources for the school
- Analyze data to ensure differentiation of instruction is taking place
- Collect and review academic coaches log (monthly)
- Meet bi-monthly with Superintendent to discuss implementation and progress

2. District Leadership Team:

Bullard, Beth, bullardb@columbiak12.com

Title	Director
Phone	(386) 755-8043
Supervisor's Name	Cherie Hill
Supervisor's Title	Assistant Superintendent
Role and Responsibilities	Coordinate Instructional Services and DOE Compliance

Moore, Frank, mooref@columbiak12.com

Title	Director
Phone	(386) 755-8043
Supervisor's Name	Cherie Hill
Supervisor's Title	Assistant Superintendent
Role and Responsibilities	Human Resources

Giddens, Anthony, giddensa@columbiak12.com

Title	Administrator
Phone	(386) 755-8043
Supervisor's Name	Todd Widergren
Supervisor's Title	Director
Role and Responsibilities	Educator Quality, Accountability, Assessment

Hooper, Yvette, hoopery@columbiak12.com

Title	Administrator
Phone	(386) 755-8043
Supervisor's Name	Cherie Hill
Supervisor's Title	Assistant Superintendent
Role and Responsibilities	Management of SIG Grant at District level

Adkins, Joe, adkinsj@columbiak12.com

Title	Director
Phone	(386) 755-8043
Supervisor's Name	Cherie Hill
Supervisor's Title	Assistant Superintendent
Role and Responsibilities	Coordinates Federal programs

Hill, Cherie, hillc@columbiak12.com

Title	Assistant Superintendent
Phone	(386) 755-8043
Supervisor's Name	Lex Carswell
Supervisor's Title	Superintendent
Role and Responsibilities	Elementary Education

Carswell, Lex, carswella@columbiak12.com

Title	Superintendent
Phone	(386) 755-8003
Supervisor's Name	
Supervisor's Title	
Role and Responsibilities	

Widergren, Todd, widergrent@columbiak12.com

Title	Assistant Superintendent
Phone	386-755-
Supervisor's Name	Lex Carswell
Supervisor's Title	Superintendent
Role and Responsibilities	Secondary Education - Business

3. Educator Quality**a. School Leadership Teams**

Describe the process and criteria by which the district determines and ensures each Focus and Priority school has a school leadership team of high quality, including a principal and assistant principal with a record of increasing student achievement in a setting with similar challenges. Include how the district determines whether to retain or replace members of the leadership team.

The Superintendent, with input from his Assistant Superintendents, makes School-Based Administrator appointments, and subsequent re-appointments, based on what he believes to be in the best interest of the school and the district, based on current school achievement data.

b. Instructional Staff

Describe the process by which the district determines whether to retain or replace members of the teaching staff in Focus and Priority schools whose data shows they have not contributed to improved student outcomes.

Principals review student data along with classroom observation data prior to making reappointment decisions. This is reviewed with the Assistant Superintendent.

D. Professional Capacity

1. Common Planning Time

Describe how the district ensures appropriate resources are allocated to ensure the master schedule at Focus and Priority schools allows for common planning time, as defined in Rule 6A-1.099811(2)(e), F.A.C

Common planning time is embedded daily for each grade level at our elementary schools. At the secondary level, the master schedule is built to allow for common planning prior to the beginning of the student day. Additionally, using TIF, Title I and Title VI funds we are able to utilize substitute teachers in classrooms to allow entire grade levels to meet with the the Administrative Leadership Team for a half day per semester to have "Data Chats". During these meetings data is analyzed, strategies developed, best practices shared and focus calendars aligned.

2. Instructional Coaches

Describe how the district provides Focus and Priority schools with a reading coach, mathematics coach and science coach to model effective lessons, lead lesson study, analyze data and provide professional development on Florida's standards. Include how the district monitors the daily activities of the coaches and their impact on instruction

All schools have the services of an Instructional Coach. Each of the two schools, one elementary and one secondary, with a Focus DA status are provided an instructional coach. Additionally, the district, through a Teacher Incentive Fund (TIF) Grant, provides support through the employment of five district Teacher Support Colleagues (TSC). All coaches are required to submit a coaching log to a district administrator, responsible for that respective level, elementary or secondary. Richardson Middle School has an additional coach with a STEM focus that is funded through the SIG. Melrose Park Elementary Schools has one additional coach funded through Title funds.

E. Ambitious Instruction and Learning

1. Instructional Programs

a. Reading

1. Verify that the district has an approved K-12 Comprehensive Research-based Reading Plan

Yes

District Reading Plans

https://www.floridacims.org/districts/columbia?current_tab=reading

b. Writing

1. Description of Programs

List and describe the core, supplemental and intensive intervention programs for writing the district currently uses at the elementary, middle and high school levels:

HMH Journeys

Program Type	Core
School Type	Elementary School
Description	The core reading series includes writing components.

McDougal Littell Literature

Program Type	Core
School Type	Middle School, High School
Description	The literature series includes writing components.

TOP Score

2. Instructional Alignment and Pacing

a. Program Monitoring

Describe the process through which the district monitors whether core instructional and intervention programs are implemented as intended, how alignment with Florida's standards is maintained and whether they are effective. Include the data used to determine fidelity and effectiveness. Provide exemplars of how the district has responded to evidence of poor implementation and evidence that a given strategy is failing to reduce barriers to goals.

As part of an overarching MTSS model, the district leadership of the Columbia School District monitors the efficacy of core instruction (tier 1) and intervention programs (tier 2), along with effective alignment to the Florida Standards through four primary methods: Instructional reviews, progress monitoring, data-driven-decision-making and professional development. See below for details on each.

a) Instructional Reviews:

District staff will conduct instructional reviews and classroom walkthroughs at least two times a year, per school, with the help of FLDOE Region 2 DA team members if the team schedule allows. These reviews focus on meaningful standards-based instruction in the core content areas and designated intervention classes (i.e., Intensive Reading) with appropriate student engagement and rigor as two of several areas of focus. Continuous improvement, centered around standards-based instruction, is the primary focus of the reviews, especially from one review to the next at any given site. It is important to note that ongoing instructional leadership will be provided at the school site by the school's leadership team with more frequent formal and informal observations and walkthroughs.

The district is being supported by the Region 2 DA team, per the request of the Superintendent, even at schools that do not have a current DA status. In addition to instructional reviews, and access to DA team members as a resource to school principals, PD opportunities from Region 2 staff are available for each school in the district. This support from Regional team members aids the district leadership in ensuring fidelity and alignment to Florida Standards, along with the effective implementation of established and emerging best practices in both core instruction and intervention classes.

b) Progress Monitoring

Progress monitoring is carried out with district wide assessments in reading, math, and science in the elementary grades and middle grades. These interim reports on progress monitoring are reviewed by district leadership and decisions are made regarding how resources are allocated in accordance with school need. These resources could be tutors, instructional materials/programs, PD, etc. District-wide progress-monitoring assessments are administered at the end of each quarter. and These PMAs are district-created. Additionally, STAR 360 assessments are administered in reading and math in all elementary school and is used for an additional progress monitoring tool in all Intensive Reading and Math classes at the secondary level. Progress monitoring is also accomplished through common summative assessments at the secondary school level with data collected by school site administration and reported to the district leadership through the principal or designee. Assessments are reviewed as part of data disaggregation to determine the quality and appropriateness of items and their alignment to standards. This process ensures that items are revised or replaced to allow for authenticity of assessment and data.

c) Data-Driven-Decision-Making

Access to Performance Matters, a comprehensive assessment and data management system, along with FOCUS, are both provided to all school sites and district level administrators. Performance Matters provides users access to student data for a minimum of two years on formative assessments and state assessments for three-year trend data. Along with the access to the system, training is made available a few times each year and is tailored to the needs of the district. District-wide data analysis is directed by a member of the district level team, and comparison student achievement reports are prepared and disseminated to district and school administrators. These reports are analyzed for potential areas of "opportunity" with PD and resource allocation. While the district looks

mainly at whole group and subgroup data, it is expected that each school site disaggregate data down to the individual teacher, class, and student, level.

In addition, reports from FOCUS are prepared as requested to analyze behavioral and attendance data. Schools will prepare both attendance and behavior reports for dissemination and discussion. District leadership cross-references behavioral and attendance data when judging the efficacy of core instruction and intervention programs.

At the school level district leadership provides support for PD in data analysis; financial support for data chats at the elementary level; common planning time at the secondary level; and school psychologist meetings and discussion at individual schools.

The Early Warning Systems component in the Performance Matters platform provides data for schools to comply with SB 850.

d) Professional Development

Using all available data from progress monitoring and instructional reviews, along with surveys from teachers, students, and stakeholders, the district leadership will decide the most effective and necessary areas of focus for professional development. Again, the focus here is on continuous improvement of the core instruction and intervention programs, by facilitating the building of capacity at each school site.

The district is directing implementation of professional development to ensure consistent instructional delivery. Each school has at least one instructional coach who is the primary point of contact at each site for delivery of district-developed or school determined PD. School-based or district based PD is also planned and implemented with the support of the District Coordinator of PD or the TIF funded Teacher Support Colleagues.

PD in the district may occur before, during or after the school day/year and will be flexible and reflective (such as through online Moodle modules), with a focus on continuous school improvement not only in the core areas and intervention programs, but in all areas of instruction whenever possible.

b. Supports for Student Transitions

Describe the structures the district has in place to support students in Focus and Priority schools as they transition from one school to another.

1. Will the district use its Student Progression Plan to satisfy this question?

Yes

a. Link to Student Progression Plan

https://drive.google.com/file/d/0BwqAKzafA_iqb1lxYzZrUnlEdG1EdTVsa2YwVmM0TU5HNDhr/view

b. Provide the page numbers of the plan that address this question

19-26

Tutoring, Rtl district process

c. Alignment of Pacing Guides to Florida Standards

Verify that the district's instructional pacing guides are aligned to Florida's standards for reading, writing, mathematics and science.

Yes

II. Needs Assessment

A. Problem Identification

1. Data to Support Problem Identification

b. Data uploads are not required by the Florida Department of Education, but are offered as a tool for needs assessment.

The following documents were submitted as evidence for this section:

No files were uploaded

2. Problem Identification Summary

This section is not required by the Florida Department of Education, but is provided as an opportunity for the district to summarize the points of strength and areas of need that have been identified in the data.

B. Problem Analysis Summary

This section is not required by the Florida Department of Education, but is provided as an opportunity for the district to summarize the underlying root causes for the areas of need identified in the data, as determined by situational awareness of, and research conducted by, the stakeholders involved in the needs assessment.

District Improvement Goals

The following key is intended to help readers understand how the sections of this document correspond to the steps of the 8-step planning and problem-solving framework used in the School Improvement Plan. The Quick Key numbers can help registered users go directly to the point of entry for any given goal, barrier and strategy within the online survey.

Problem Solving Key

G = Goal

B =
Barrier

S = Strategy

1 = Problem Solving Step  S123456 = Quick Key

Strategic Goals Summary

- G2.** All schools in the Columbia County School District will provide consistent, high quality, rigorous instruction with differentiation in reading and mathematics to increase student achievement outcomes. [copy]

Strategic Goals Detail

For each strategic goal, this section lists the associated targets (i.e., “SMART goals”), targeted barriers to achieving the goal, resources available to help reduce or eliminate the barriers, and the plan for monitoring progress toward the goal.

G2. All schools in the Columbia County School District will provide consistent, high quality, rigorous instruction with differentiation in reading and mathematics to increase student achievement outcomes.

[copy] 1a

G030590

Targets Supported 1b

Focus	Indicator	Year	Target
District-Wide	FSA Mathematics Achievement	2017-18	64.0
District-Wide	FSA ELA Achievement	2017-18	53.0

Targeted Barriers to Achieving the Goal 3

- Complete understanding of Florida Standards and Test Specifications

Resources Available to Help Reduce or Eliminate the Barriers 2

- Instructional coaches to serve all schools.
- Paraprofessionals at elementary level.
- Tutors in schools for students in lowest quartile.
- Data chats: principal & teachers (elementary).
- Common planning.
- Unified instructional prioritization at district.
- Expansion of Performance Matters for progress monitoring and data analysis.
- Use of i-Ready in K-8

Plan to Monitor Progress Toward G2. 8

Professional Development on the implementation of higher order thinking and questioning in relationship to cognitive complexity required by test specifications

Person Responsible

Beth Bullard

Schedule

Semiannually, from 7/1/2017 to 7/1/2018

Evidence of Completion

Agendas; sign in sheets

Plan to Monitor Progress Toward G2. 8

Collaboration and PLCs on the development of test items based on the Florida Standards at required complexity levels.

Person Responsible

Beth Bullard

Schedule

Semiannually, from 7/1/2017 to 7/1/2018

Evidence of Completion

Agendas; sign in sheets

Plan to Monitor Progress Toward G2. 8

Develop District Instructional Planning Guides (DIPG) for ELA and Math, with revisions as deemed necessary

Person Responsible

Beth Bullard

Schedule

Annually, from 7/1/2017 to 6/30/2018

Evidence of Completion

Published DIPGs

Plan to Monitor Progress Toward G2. 8

Development and use a variety of diagnostic, summative and formative assessments to check standard mastery and guide instruction

Person Responsible

Beth Bullard

Schedule

Semiannually, from 7/1/2017 to 6/30/2018

Evidence of Completion

Assessments correlated to Florida Standards

District Action Plan for Improvement

Problem Solving Key

G = Goal

B =
Barrier

S = Strategy

1 = Problem Solving Step  S123456 = Quick Key

G2. All schools in the Columbia County School District will provide consistent, high quality, rigorous instruction with differentiation in reading and mathematics to increase student achievement outcomes. [copy] 1

G030590

G2.B1 Complete understanding of Florida Standards and Test Specifications 2

B071216

G2.B1.S1 Provide Professional Learning opportunities that allow for collaboration of grade level and content area teachers to unpack standards and identify effective instructional strategies that engage students. 4

S080011

Strategy Rationale

Increase knowledge of standards and how to effectively engage students in differentiated learning activities.

Action Step 1 5

Professional Development on the implementation of higher order thinking and questioning in relationship to cognitive complexity required by test specifications

Person Responsible

Beth Bullard

Schedule

Quarterly, from 7/1/2017 to 6/30/2018

Evidence of Completion

Agendas; sign in sheets

Action Step 2 5

Collaboration and PLCs on the development of test items based on the Florida Standards at required complexity levels.

Person Responsible

Beth Bullard

Schedule

Monthly, from 7/1/2017 to 6/30/2018

Evidence of Completion

Agendas; sign in sheets

Action Step 3 5

Develop District Instructional Planning Guides (DIPG) for ELA and Math, with revisions as deemed necessary

Person Responsible

Beth Bullard

Schedule

Annually, from 7/1/2017 to 6/30/2018

Evidence of Completion

Published DIPGs

Action Step 4 5

Development and use a variety of diagnostic, summative and formative assessments to check standard mastery and guide instruction

Person Responsible

April Bolkosky

Schedule

Quarterly, from 7/1/2017 to 6/30/2018

Evidence of Completion

Assessments correlated to the Florida Standards

Plan to Monitor Fidelity of Implementation of G2.B1.S1 6

Professional Development on the implementation of higher order thinking and questioning in relationship to cognitive complexity required by test specifications

Person Responsible

Beth Bullard

Schedule

Quarterly, from 7/1/2017 to 6/30/2018

Evidence of Completion

Agendas; sign in sheets

Plan to Monitor Fidelity of Implementation of G2.B1.S1 6

Collaboration and PLCs on the development of test items based on the Florida Standards at required complexity levels.

Person Responsible

Beth Bullard

Schedule

Monthly, from 7/1/2017 to 6/30/2018

Evidence of Completion

Agendas; sign in sheets

Plan to Monitor Fidelity of Implementation of G2.B1.S1 6

Develop District Instructional Planning Guides (DIPG) for ELA and Math, with revisions as deemed necessary

Person Responsible

Beth Bullard

Schedule

Annually, from 7/1/2017 to 6/30/2018

Evidence of Completion

Published District Instructional Planning guides

Plan to Monitor Fidelity of Implementation of G2.B1.S1 6

Development and use a variety of diagnostic, summative and formative assessments to check standard mastery and guide instruction

Person Responsible

April Bolkosky

Schedule

Quarterly, from 7/1/2017 to 6/30/2018

Evidence of Completion

assessments correlated to Florida standards

Plan to Monitor Effectiveness of Implementation of G2.B1.S1 7

Professional Development on the implementation of higher order thinking and questioning in relationship to cognitive complexity required by test specifications

Person Responsible

Beth Bullard

Schedule

Semiannually, from 7/1/2017 to 6/30/2018

Evidence of Completion

Classroom observational data, as collected by the site based administrators

Plan to Monitor Effectiveness of Implementation of G2.B1.S1 7

Collaboration and PLCs on the development of test items based on the Florida Standards at required complexity levels.

Person Responsible

Beth Bullard

Schedule

Semiannually, from 7/1/2017 to 6/30/2018

Evidence of Completion

PD documentation

Plan to Monitor Effectiveness of Implementation of G2.B1.S1 7

Develop District Instructional Planning Guides (DIPG) for ELA and Math, with revisions as deemed necessary

Person Responsible

Beth Bullard

Schedule

Annually, from 7/1/2017 to 6/30/2018

Evidence of Completion

Published DIPGs

Plan to Monitor Effectiveness of Implementation of G2.B1.S1 7

Development and use a variety of diagnostic, summative and formative assessments to check standard mastery and guide instruction

Person Responsible

Beth Bullard

Schedule

Semiannually, from 7/1/2017 to 6/30/2018

Evidence of Completion

Assessments correlated to Florida Standards

IV. Implementation Timeline

Source	Task, Action Step or Monitoring Activity	Who	Start Date (where applicable)	Deliverable or Evidence of Completion	Due Date/ End Date

V. Professional Development Opportunities

Professional development opportunities identified in the DIAP as action steps to achieve the district's goals.

G2. All schools in the Columbia County School District will provide consistent, high quality, rigorous instruction with differentiation in reading and mathematics to increase student achievement outcomes. [copy]

G2.B1 Complete understanding of Florida Standards and Test Specifications

G2.B1.S1 Provide Professional Learning opportunities that allow for collaboration of grade level and content area teachers to unpack standards and identify effective instructional strategies that engage students.

PD Opportunity 1

Professional Development on the implementation of higher order thinking and questioning in relationship to cognitive complexity required by test specifications

Facilitator

Instructional Coaches, District Instructional Support Staff

Participants

Administrators, teacher and support staff

Schedule

Quarterly, from 7/1/2017 to 6/30/2018

PD Opportunity 2

Collaboration and PLCs on the development of test items based on the Florida Standards at required complexity levels.

Facilitator

Teacher Support Colleagues; Instructional Coaches, Principals

Participants

Teachers; Instructional Coaches

Schedule

Monthly, from 7/1/2017 to 6/30/2018

PD Opportunity 3

Develop District Instructional Planning Guides (DIPG) for ELA and Math, with revisions as deemed necessary

Facilitator

Instructional Coaches, District Instructional Support Staff

Participants

Teachers, school administrators

Schedule

Annually, from 7/1/2017 to 6/30/2018

PD Opportunity 4

Development and use a variety of diagnostic, summative and formative assessments to check standard mastery and guide instruction

Facilitator

Instructional Coaches

Participants

teachers

Schedule

Quarterly, from 7/1/2017 to 6/30/2018

VI. Technical Assistance Items

Technical Assistance opportunities identified in the DIAP as action steps to achieve the district's goals.

VII. Budget

1	G2.B1.S1.A1	Professional Development on the implementation of higher order thinking and questioning in relationship to cognitive complexity required by test specifications	\$0.00
2	G2.B1.S1.A2	Collaboration and PLCs on the development of test items based on the Florida Standards at required complexity levels.	\$0.00
3	G2.B1.S1.A3	Develop District Instructional Planning Guides (DIPG) for ELA and Math, with revisions as deemed necessary	\$0.00
4	G2.B1.S1.A4	Development and use a variety of diagnostic, summative and formative assessments to check standard mastery and guide instruction	\$0.00
Total:			\$0.00
